Tests have been arranged for anyone who suspects they are losing their hearing. Such persons generally say they can hear but cannot understand words. Testing with the latest computerized equipment will indicate if you can be helped.

Everyone, especially adults over 55, should have an electronic hearing test at least once a year. If there is a hearing problem, hearing tests may reveal that newly developed methods or correction will help, even for those who have been told in the past that a hearing aid would not help them.

If you suspect you have hearing loss, call for a free hearing test appointment. Our licensed specialists are trained in the latest auditory testing methods and will be the first ones to tell you if you don’t need a hearing aid. If you do have a hearing loss, we will explain your results and provide you with a list of options.
