

WHEN YOU'RE DAIRYLAND SEED PROUD, THE SIGN IN FRONT OF YOUR BEANS IS MORE ABOUT WHAT'S BEHIND THEM.

Pride in your soybeans comes down to one thing: bushels. Enlist E3™ soybeans from Dairyland Seed offer the most advanced trait technology available in soybeans today. Delivering the same wide application window you're used to, herbicides that land and stay on target and tolerance to a wide range of herbicides, the Enlist™ weed control system makes it easier than ever to unleash your beans' full potential. Now that's something you can be proud of. Are you #DSproud?

The Enlist weed control system is owned by Dow AgroSciences LLC. Enlist E3™ soybeans were jointly developed by Dow AgroSciences and MS Technologies. Enlist Duo and Enlist One herbicides are not registered for sale or use in all states or counties. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your area. Enlist Duo and Enlist One herbicides are the only 2,4-D products authorized for use with Enlist crops. Consult Enlist herbicide labels for weed species controlled. Always read and follow label directions.
