Senate Votes Oleo Tax As Parade Starts

The Senate has passed a bill to impose a tax on oleomargarine. The tax, which was introduced by Senator Hoover, is expected to generate $5 million in revenue. The tax will be used to support the medial system and to provide relief for farmers.

Congressman Hoover’s Attack

The attack grew out of a controversy over the role of oleomargarine in the economic crisis. The farmers, who are suffering from low prices and a glut of milk, are using oleomargarine as a substitute for butter. The tax on oleomargarine is expected to hurt the farmers, who are already struggling to make ends meet.
