

Century of industrial use leaves toxic concerns

Known spills

1. Petroleum
2. Chlorinated solvents
3. Diesel storage tank, pipeline release
4. Underground storage tanks

Suspected contamination

5. Coal ash
6. Contaminated fill

Former chemical use

7. Fuel/coal tanks
8. Drum storage area
9. Spice room (solvents)
10. Oil storage
11. Filling stations (three locations)
12. Grease tanks
13. Laundry
14. Diesel generator
15. Oil tank
16. Wastewater discharge
17. Paint shop
18. Incinerator and chemical tanks
