

VOL. VI.

LINCOLN, NEBRASKA, SATURDAY, AUGUST 11, 1894.

NO. 32.

The Nebraska State Democrat.

Published by the Democrat Publishing Company, Lincoln, Neb.

Entered at the postoffice at Lincoln, Neb., as second-class matter, August 11, 1893. Approved for mailing as a newspaper.

SCIENTIFIC REFRIGERATION.

The Australian are making trends into the American Agricultural Exports. Washington, Aug. 11.—The possibilities of the refrigerating system of food are set forth in an impressive fashion in a report by the state department.

By a scientific application of this system, as yet in its infancy in the United States, the Australian people, through more distant from England by many thousands of miles than the American, are enabled to maintain a competition that grows more formidable every year.

The report makes it evident that we have to lose heavy amounts in our long cherished exports of pork and poultry and dairy products.

Under the direction of the agricultural department, promising experiments are being made with the sterilizing system, and a butter that will keep perfectly in any climate, nearly all of our exports of butter are now produced at central factories, and the farmers are paid for quantity milk only.

The government is also considering the production and export of many of the products of the soil as possible, the principal of which are eggs, poultry, eggs, and green peas.

Shipment by refrigeration have already been made with promising results and it has been found that green peas may be put in the market in good condition by using aerated chambers.

A RAILWAY ORDER SUE.

Interferes With Pay for Striking—A Reasonable Defense.

Lincoln, Neb., Aug. 11.—John H. Wiley, the chief clerk of the Order of Railway Conductors and forty-seven other members of the order, have been indicted separate suits against the order to recover from \$100 to \$150 each for strike pay, which they claim is due to them for going out in the Lehigh Valley strike of last year.

All these men were ordered out by Grand Chief Conductor Clark when the strike came in and they were arrested on a grand jury charge of refusing the claims. Notice was then served on the grand judge that the claims would be taken to the courts.

Mr. Clark then called upon the two Buffalo lodges to show cause why they should not be fined or contemptuous in trying to go behind the returns of the grand judge.

Dr. Prior's Cream Baking Powder Most Perfect Made. A child drowned. The little five-year-old daughter of William Trabucchi, who lives at 117 South Tenth street, died at 4 o'clock this morning.

ROCK ISLAND'S BAD WRECK.

TWELVE OR MORE LIVES SACRIFICED. The Work of Train Wreckers.

When the Train Wrecked the Trestle at Marfa, Kan. There were also several passengers who got on at Marfa City. Footie says that they were looking for the bodies of the passengers who were crying.

There is no question but that the disaster was the work of train wreckers. J. W. Givler, a section man, said that he had seen another man dressed man jump a freight and go head.

THE SANTA FE SCANDAL.

Accountant Little's Report Scandalized His Men. New York, Aug. 11.—The general reorganization committee of the Atchison Railway company met yesterday and received President Rehnhardt's reply to Expert Little's statement that the income account of the Atchison for four years, ending June 30, 1894, had been overstated to the amount of over \$2,000,000.

The report of the committee was that the income account of the Atchison for four years, ending June 30, 1894, had been overstated to the amount of over \$2,000,000.

WHEN HEADING WATERS FLOW.

Hot Springs, South Dakota is a place that everyone should visit. It is a health resort, the best in the west. It is a charming spot, where pure air and healing waters put sickness to flight and make everything get perfect health well-nigh an impossibility.
