CLOSING THE Distance

Dreamweaver Foundation delivers Facebook Portals to Area Seniors

With social distancing preventing seniors from being with families and friends, Dreamweaver Foundation has provided seniors more than 200 small videocalling devices called Facebook Portals, making it possible for them to virtually connect with loved ones who have Portals, smartphones or tablets.

Due to ongoing demand, Dreamweaver started a fundraising campaign to purchase additional devices for seniors in southeast Nebraska and western Iowa.

"Most seniors who receive a Portal are connecting with their loved ones with clear picture and sound for the first time in months," Executive Director Cheri Mastny said. "The reactions range from tears of joy to an overwhelming sense of relief and independence."

Dreamweaver Foundation is dedicated to fulfilling the dreams of seniors in need who are terminally ill, making their lifelong dreams come true through incredible experiences they will never forget.

For more information, to donate or nominate a senior to receive a Facebook Portal, visit Dreamweaver.org.

A WILD IDEA

It is the proud mission of the Omaha Zoo Foundation to help grow an environment where wonder can live and education can thrive. Your support creates world-class exhibits that delight and educate people of all ages, while protecting and preserving an increasingly fragile world. And the wildlife that calls it home.
