

We are launching a fundraising campaign to support Aria's recovery from heart surgery. After several months of misdiagnoses, Aria underwent heart and thoracic surgery. Every day is a struggle for her as she recovers. We're asking for your support to help us navigate the financial challenges of this journey. Aria's story is one of hope but also one that requires significant resources to ensure a full recovery. The cost of surgery, ongoing care, and specialized therapies is substantial for her single mother, and we are seeking to raise money to help cover these expenses. We believe that with the support of our community, family and friends, we can make a real difference in Aria's life. We hope you will consider joining us at this event or making a donation to create a brighter future for Aria.

**SATURDAY,
SEPTEMBER 13
