WALKABLE DOWNTOWN LOCATION

WHERE WARM MODERN DESIGN MEETS WALKABLE DOWNTOWN LIVING! This beautifully designed 3 bed, 3.5 bath townhome is tucked into a

quiet residential pocket of downtown Washington, just steps from shops, restaurants, the riverfront trail, and year-round events. Offering 2,400+/- sq ft, Missouri River views, two private balconies, and a fenced backyard ideal for pets or play, this home blends luxury with lifestyle. Designed by architect and structural engineer Peter Conant and Ronnie Romacker, known for large luxury projects nationwide, this residence showcases quality construction and thoughtful design throughout. The open concept main level features top of the line Pergo water- and scratch-resistant flooring, abundant natural light, and a high-end kitchen with granite countertops, premium U.S.-made appliances, a center island, and a bright breakfast nook. The living and dining areas overlook the private fenced backyard and offer direct patio access with a privacy divider. Access all levels via a beautiful oak staircase or the residential elevator, servicing every floor and holding up to 1,000 lbs. The upper level features the primary suite with abundant natural light, a walk-in closet with built-ins, and a luxurious ensuite with double vanity, quartz countertops, and a large step-in shower. A cozy river-view nook, an additional ensuite bedroom with private balcony, and an upper-level laundry room with sink and high-end washer and dryer complete this level!
