2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Principal's Message

Needles Middle School serves grades 6-8 students residing in and around the City of Needles. The current student body hovers around 215 students. Many students travel 50 or more miles each way to attend school. Needles Middle School consists of thirteen teachers (two teachers shared with Needles High School and one shared with Vista Colorado Elementary School), one academic counselor, and three support staff. As a small school, we have the opportunity to create the best learning experiences for all students and maintain a safe environment. Successes at Needles Middle School stem from the strong working relationships our staff has with parents and students. We have dedicated, disciplined, and resilient staff members whose primary focus is to promote student learning and success. The goals at Needles Middle School are to close

the achievement gap, successfully implement the California State Standards, and prepare all students for college and career.

Needles Middle School Mission Statement

Needles Middle School is committed to offering every student equal access to educational opportunities in a safe and orderly environment. We will continually seek to improve the quality of school life and instruction with the long-range goal of helping each individual student become a responsible and productive lifelong learner in a global society.

Needles Middle School Vision Statement:

The Needles Middle School staff and school community are committed to equipping all students with the skills and knowledge necessary to be academically proficient. We will ensure our students are prepared to successfully engage in 21st Century College and Career Pathways.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The Needles Unified School District held a public hearing on October 10, 2023, and determined that each school within the District had sufficient and good quality textbooks, instructional materials, including laptop computers, and science lab equipment, pursuant to the settlement of Williams vs. the State of California. In addition, the District ensured sufficiency of visual and performing arts materials for the 2022-2023 school year. All students, including English learners, have access to their own textbooks, devices, and instructional materials to use in class and at home. Supplemental materials that support students with special needs are also provided using categorical funds, lottery funds, and grants. When State textbook funds do not meet our needs, general fund dollars are allocated by our governing board to ensure our textbook needs are met.

As we continue in post-pandemic education, Needles Unified School District ensures all students are 1 to 1. Our adoption of curriculum has gone back to pre-pandemic, which is CPM in mathematics. We are also using I-Ready as a supplement for math and reading. My Perspectives for ELA, SAVVAS for History-Social Science, and Stem Scopes for Science. Moving forward Needles has ensured all students have access to textbooks online as well as physical textbooks. There are extra class sets, so students are able to have a book at home as well as at school in all subjects.

The State Department of Education establishes textbook adoption cycles that address changes in curriculum as reflected by State Standards and Frameworks. District committees review State-approved and adopted materials. Textbooks, recommended by the committee, are made available for public comment before District adoption.

School Facility Conditions and Planned Improvements

The most recent facilities inspection of Needles Middle School using the FIT (Facility Inspection Tool) took place in September 2024. The FIT inspection found no extreme deficiencies or good repair deficiencies.

District and school administration place a high priority on student and staff safety. Monthly inspections and ongoing maintenance ensure school facilities are kept safe, in good working condition, and clean. Fire drills and drop-and-cover drills are conducted monthly under the supervision of the administration and the Needles Unified Maintenance and Operations Department. Needles Middle School has a current disaster preparedness safety plan that is reviewed, updated, and approved annually by the School Site Council and the Needles Unified School District Board of Trustees. School-wide procedures are in place for the supervision of students on the playground, hallways, cafeteria, and bathrooms to ensure student safety before school, during nutrition break and lunch, and after school. Needles Middle School is a closed campus. All visitors during school hours must check in at the school office and wear a school issued an ID badge while on campus.

The Needles Unified School District Board of Trustees has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office or at the District Office. School administration works daily with district staff to develop cleaning schedules to ensure a clean and safe school. Classrooms, office areas, cafeteria, restrooms, and playground areas are cleaned and maintained regularly. Student restrooms are spot-checked throughout the day for cleanliness, and adequate soap and supplies.

Built in the early 1950s, the Needles Middle School campus consists of 10 main classrooms, 4 portable classrooms, a boys' and girls' locker room, and a playground. One portable classroom is used for a computer lab, and another portable classroom is used as a science lab. The remaining 2 portable classrooms are used as regular classrooms. An athletic field and library are on the Needles High School Campus, but are shared with the Needles Middle School. The cafeteria/multipurpose room is on the Needles Middle School Campus but is shared with Vista Colorado Elementary School and Needles High School. All site facilities provide adequate space for our students and staff.

Since the last FIT inspection on September 2024, there have been no planned or recently completed facility improvements.

The Needles Unified School District uses a Calendar FMX, digital work order process to ensure efficient service and that emergencies are addressed quickly, efficiently, and with as little interruption to learning environment as possible.

Williams Monitoring: Williams monitoring visits are used to verify sufficient instructional materials in the four core subject areas (English language arts, mathematics, history/social science, science), science lab equipment, and to determine if there is any facility condition that poses an emergency or urgent threat to the health or safety of pupils and staff.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates					
This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement
Parents are encouraged to be an integral part of the educational program. We work diligently to increase the relationships between the school and parents/community. At the opening of the school year, an Open House is held during the evening for parents to visit the school site and meet their child/children's teachers. School Site Council meetings are held quarterly and all are welcome to attend. Parents are informed with an online program through Parent Portal where parents have 24-hour-a-day access to their student's grades, attendance, and discipline. AERIES Communication System (parent calling system) and Parent Square are used to inform parents of special events and happenings at Needles Middle School.
For more information on how to become involved, please contact the Principal, Mr Lester G. Eastman, in the school office.

2025-26 School Safety Plan

The Comprehensive Safe School Plan is fully incorporated in the Single Plan for Student Achievement and includes data regarding crime, safe school procedures, and compliance with laws including (1) child abuse reporting, (2) disaster response, (3) suspension and expulsion policies, (4) notification of teachers of dangerous pupils, (5) sexual harassment, (6) schoolwide dress codes prohibiting gang-related apparel, (7) procedures for safe ingress and egress from school, (8) procedures to ensure a safe and orderly environment conducive to learning, and (9) rules and procedures on school discipline adopted pursuant to Education Code Sections 35291 and 35291.5. A copy of the Single Plan for Student Achievement is available for inspection by the public at each school.

Our staff is committed to maintaining a safe, secure, and aesthetically pleasing environment for our students. The District's Comprehensive Emergency Disaster Plan is aimed at providing security for students, teachers, and family members in case of unexpected and disruptive events.

Routine student safety is provided through the assignment of teachers and paid supervisors for supervision duty during all recess and lunch periods as well as before and after school. All visitors and volunteers are required to sign-in at the office, state their business at the school, and show identification. They are then provided with a name tag to wear while on school grounds. A safe, secure teaching and learning environment is of the highest priority to Educational Training Center administration.

The School Safety Plan was last reviewed, updated, and discussed with the school faculty in the Fall of 2022.

Professional Development

Professional Development is an integral aspect of the District's plan for the ongoing growth of all District employees. The purpose of professional development is to create schools in which all students and staff members are learners who continually

Professional Development

improve their performance.

In addition, school sites have ongoing staff development at their respective schools. The District has provided weekly Early Release Days on Wednesdays with instructional time still exceeding or meeting the State requirements. The focus during early release days is to professional development on Common Core State Standards and effective instructional strategies as well as teacher collaboration with their colleagues and administration to develop best practices being used within their school site. Administration, staff, and consultants work together to provide these professional development sessions.

Principals are engaged in the study of research-based practices that increase student learning. Professional development is a part of every principal's meeting.

Additional collaboration time was encouraged for all grade levels following the school year to develop Common Core State Standards' Scope and Sequence for the next school year. All grade levels participated in this work.

We successfully support beginning teachers in their first and second years of teaching with research-based coaching programs. Each beginning teacher receives expert help from an experienced Support Provider.
