2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2025-26 School Description and Mission Statement

Principal’s Message

Needles High School serves students in grades 9–12 from the City of Needles and surrounding communities. The school has an enrollment of approximately 260 students, many of whom commute 50 miles or more each day to attend. Our instructional program is supported by a dedicated team of 16 teachers—three of whom are shared with Needles Middle School—along with one academic counselor and five classified support staff members.

As a small, close-knit campus, Needles High School is uniquely positioned to offer personalized learning experiences while

2025-26 School Description and Mission Statement

fostering a safe, supportive, and inclusive school environment. Our students consistently demonstrate strong academic achievement and have earned admission to highly competitive colleges and universities throughout California and across the nation. These successes reflect the strength of the collaborative partnerships among our staff, students, families, and community.

The faculty and staff at Needles High School are committed, resilient, and student-centered, working collectively to promote academic excellence and student well-being. Our ongoing goals include closing achievement gaps, implementing California State Standards with fidelity, and ensuring all students are prepared for college, career, and civic life.

Mission Statement

Provide a safe and supportive learning environment that fosters academic success while emphasizing college and career readiness for all students.

Vision Statement

Through high expectations and the development of 21st Century Learning Skills, Needles High School prepares students to seize opportunities and become productive, self-directed citizens in a global society.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The Needles Unified School District held a public hearing on October 21, 2024, and determined that each school site had sufficient, high-quality textbooks and instructional materials in compliance with the requirements of the Williams v. State of California settlement. This determination included textbooks, laptop computers, science laboratory equipment, and visual and performing arts instructional materials for the 2024–2025 school year.

All students, including English learners, have equitable access to standards-aligned textbooks, instructional materials, and technology for use both at school and at home. Supplemental instructional resources to support students with special needs are provided through a combination of categorical funds, lottery funds, and grant funding. When State textbook funding is insufficient to meet District needs, the Governing Board allocates General Fund resources to ensure that all students have access to the required instructional materials.

In response to the worldwide COVID-19 pandemic beginning in 2020 and the resulting shift to distance learning, the Needles Unified School District implemented a one-to-one technology initiative by issuing laptop computers to all students. Internet hotspots were also provided to students lacking reliable home internet access to ensure continuity of instruction.

The California State Department of Education establishes textbook adoption cycles to reflect changes in curriculum aligned with State Standards and Frameworks. The District follows this process by convening curriculum committees to review State-adopted instructional materials. Committee recommendations are presented for public review and comment prior to final adoption by the District.

School Facility Conditions and Planned Improvements

The most recent facilities inspection of Needles High School was conducted in September 2024 using the California Department of Education’s Facility Inspection Tool (FIT). Results from the September 2024 Williams Monitoring visit identified no extreme deficiencies that would pose an emergency or urgent threat to the health or safety of students or staff. The inspection did, however, note areas in need of repair classified as “good repair deficiencies,” specifically related to Gymnasium, Library, Auditorium and, minor structural issues, and playground and school grounds.

The District and school administration place a high priority on maintaining a safe, secure, and well-maintained learning environment. Ongoing maintenance and monthly site inspections are conducted to ensure facilities remain clean, functional, and safe. Fire drills and “drop, cover, and hold” drills are conducted monthly under the supervision of school administration in coordination with the Needles Unified School District Maintenance and Operations Department. Needles High School maintains a comprehensive disaster preparedness and school safety plan that is reviewed, updated, and approved annually by the School Site Council and the Needles Unified School District Board of Trustees.

School-wide supervision procedures are in place to ensure student safety before school, during nutrition breaks and lunch periods, and after school in areas including hallways, restrooms, the cafeteria, and common areas. Needles High School operates as an open campus, allowing students to leave campus during lunch. To maintain campus security, all visitors during instructional hours are required to check in at the school office and wear a school-issued identification badge while on campus.

The Needles Unified School District Board of Trustees has adopted districtwide cleaning standards for all school sites. School administration collaborates daily with District custodial and maintenance staff to implement cleaning schedules that ensure a safe and sanitary environment. Classrooms, offices, restrooms, cafeteria areas, and common spaces are cleaned and maintained regularly, with student restrooms spot-checked throughout the day to ensure cleanliness and adequate supplies.

Planned improvements at Needles High School include the inspection of gymnasium bleachers and the implementation of keyless entry systems for the main office, with plans to expand keyless access to all classrooms in the future to further enhance campus security.

The Needles High School campus includes 13 classrooms, two science laboratories, mobile computer labs, a culinary kitchen, two career technical education classrooms, a gymnasium with men’s and women’s locker rooms, an auditorium, a fine arts building with two classrooms, a library, athletic fields, and an administration building. The library and athletic fields are shared with Needles Middle School. The cafeteria/multipurpose room, located on the Needles Middle School campus, is shared with Vista Colorado Elementary School and Needles High School. All facilities provide adequate space to support student learning and staff needs.

Since the September 2024 FIT inspection, no deficiencies related to instructional materials have been identified, and no extreme facility deficiencies have been reported. The District utilizes the FMX digital work order system to ensure maintenance requests are addressed promptly and efficiently, minimizing disruptions to the instructional program.

School Facility Conditions and Planned Improvements

Williams monitoring visits are conducted to verify the sufficiency of instructional materials in the core subject areas—English Language Arts, mathematics, history/social science, science, and world language—as well as the adequacy of science laboratory equipment, and to confirm that no facility conditions exist that would pose a threat to the health or safety of students or staff.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Parents are encouraged to be active partners in their child's education, and Needles High School works diligently to foster strong, collaborative relationships among the school, families, and the broader community. At the beginning of each school year, an evening Open House is held to provide parents with the opportunity to visit the campus, meet teachers, and learn about academic programs and expectations.

Opportunities for parent participation and shared decision-making are available through quarterly School Site Council meetings, which are open to all parents and community members. In addition, parents are encouraged to participate in the District Advisory Committee, which plays a key role in defining the goals, actions, and priorities of the District's Local Control and Accountability Plan (LCAP).

To support ongoing communication and transparency, parents have 24-hour access to their student's grades, attendance, and discipline records through the online Parent Portal. The Aeries "Parent Connect" communication system is also used to keep families informed about school events, activities, and important announcements at Needles High School.

The school's academic counselor meets with parents to provide guidance on college and career readiness, including financial aid information and assistance with the Free Application for Federal Student Aid (FAFSA).

2025-26 Opportunities for Parental Involvement

For additional information on how to become involved in the school community, parents are encouraged to contact the school office or Principal, Amy Avila.

2025-26 School Safety Plan

The Comprehensive Safe School Plan is fully incorporated in the Single Plan for Student Achievement and includes data regarding crime, safe school procedures, and compliance with laws including (1) child abuse reporting, (2) disaster response, (3) suspension and expulsion policies, (4) notification of teachers of dangerous pupils, (5) sexual harassment, (6) school-wide dress codes prohibiting gang-related apparel, (7) procedures for safe ingress and egress from school, (8) procedures to ensure a safe and orderly environment conducive to learning, and (9) rules and procedures on school discipline adopted pursuant to Education Code Sections 35291 and 35291.5. A copy of the Single Plan for Student Achievement is available for inspection by the public at each school.

Our staff is committed to maintaining a safe, secure, and aesthetically pleasing environment for our students. The District's Comprehensive Emergency Disaster Plan is aimed at providing security for students, teachers, and family members in case of unexpected and disruptive events.

Routine student safety is provided through the assignment of teachers and paid supervisors for supervision duty during all nutrition and lunch periods as well as before and after school. All visitors and volunteers are required to sign in at the office, state their business at the school, and show identification. They are then provided with a name tag to wear while on school grounds. A safe, secure teaching and learning environment is of the highest priority to Needles High School and NUSD administration.

The School Safety Plan was last reviewed, updated, and discussed with the school faculty and Needles High School, School Site Council in February 2024.

Fiscal Year 2024-25 Types of Services Funded

There are programs available to support and assist students identified as Title I, Title IV, Title VI, CTE, AVID, and Special Education. Title I funds are used to supplement the regular educational program. Needles High School is a Schoolwide Title I school. Title I funds are dispersed through the SPSA. Title II funds are directed toward staff development and training. Special Education funding supports the educational program for students with an IEP. The AVID program is designed to close the achievement gap and prepare students for college. CTE provides opportunities to explore and prepare for careers after graduating.

Professional Development

Professional development is an integral component of the Needles Unified School District's commitment to continuous improvement and the ongoing growth of all employees. The purpose of professional development is to foster learning-centered schools in which educators and staff continually refine their practices to improve student achievement and outcomes.

Ongoing professional learning is provided at both the district and school-site levels. The District implements weekly Early Release Days on Wednesdays, while still meeting or exceeding State instructional time requirements. These early release sessions are dedicated to professional development focused on the Common Core State Standards, effective instructional strategies, and collaborative planning. Teachers work alongside colleagues and site administrators to analyze instructional practices, share best practices, and strengthen schoolwide instructional coherence. These professional learning opportunities are facilitated collaboratively by administrators, staff, and outside consultants.

The District works in partnership with the San Bernardino County Superintendent of Schools Curriculum and Instruction Department to provide ongoing professional development led by county consultants. These sessions are aligned with the principles of Visible Learning, as articulated by John Hattie, Douglas Fisher, Nancy Frey, and John Almarode, and focus on evidence-based instructional practices that have a high impact on student learning.

Needles High School works closely with the County's Small Schools Program Manager to plan and coordinate professional development activities, conduct classroom walkthroughs, and provide staff with timely, constructive feedback to support continuous instructional improvement.

School and district administrators also engage in continuous professional learning. Principals participate regularly in professional development focused on research-based practices proven to increase student learning, and professional development is embedded into every principals' meeting.

Additional collaboration time is encouraged following the conclusion of the school year to allow teachers at all grade levels to develop and refine California State Standards-aligned scope and sequence documents in preparation for the upcoming school year. All grade levels participate in this collaborative planning process.

The District provides structured support for beginning teachers in their first and second years through research-based induction and coaching programs. Each beginning teacher is paired with an experienced Support Provider who offers individualized guidance, mentoring, and professional support to promote instructional growth and long-term success.
