

June 17, 2020

I would like to take a moment and thank all the positive efforts and energy from everyone who is assisting in and pushing with us for a TRUE end and resolve of a critical crisis.

As many are aware of the recent events of racial slurs, severe words of degradation meant to demean a race of mankind, was sent to my children along with others. I and my family and a community of many others find this completely unacceptable.

I find it incomprehensible how others could find this time to act out, on personal agendas issuing threats and intimidation tactics to deter and distract from an issue that must be resolved. That is what brings me to these words because I will not go unheard again on this matter. As things escalated at an epic pace, the true matter began to be lost and others lost sight and began to see this as an issue with a name and the prominence of a family and NOT the children affected by this matter. Children who are being inflicted by a demoralizing environment condoned by an employee of the very institution meant to teach them to be functioning adults. My response and fight against this behavior is going to be the same no matter who the individual is or of kin to (or not), the act is unacceptable and must be rectified and prevented from ever happening again.

Sincerely,
Abdullah Qadir
