## 80-Acre Park 'Hidden' in Highland

By MARGARET MAUNDER

One of the most beautiful areas in St. Paul — if you like a rugged, natural kind of beauty — is located right within Highland, yet thousands of people here are unaware of its existence.

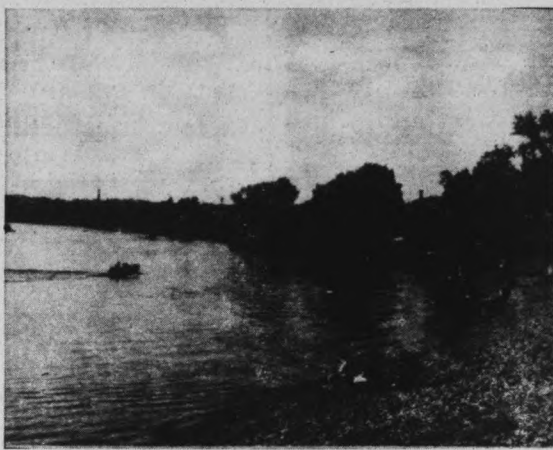

The place is suitably named — Hidden Falls Park. Though it is 80 acres in size and officially designated as part of the St. Paul park system, it is almost completely hidden at the base of the Mississippi river bluffs extending from the Ford Plant grounds to the Fort Snelling bridge.

Access to the park is by way of a narrow road dropping sharply from the East Mississippi River boulevard at Magoffin. A sign at the entrance says rather ominously, "Travel this road at your own risk."

### Waterfall

"There's a lot to tell about Hidden Falls Park," declared W. LaMont Kaufman, St. Paul's general superintendent of zoo and parks. "There's a lovely waterfall under the hairpin curve. It is fed by springs in the Highland area and by water from glass-washing at the Ford Plant. Sometimes the water is red from rouge used to polish the glass."

During the WPA period a stone stairway and bridges were built

### Sharing, not scaring

## Children's Halloween Collections Will Aid World's Needy Youth

Several churches and parish schools in this area will sponsor the UNICEF Halloween project known as "The Trick Is to Treat". Mrs. Nathan Donsker, St. Paul and Ramsey county chairman, reports. Some of the churches plan to serve refreshments to the children who participate when they return their UNICEF containers.

Mr. Henry Bender, Chairman of the Board of Directors of The St. Paul Parks and Playgrounds, announced recently that the department would sponsor the UNICEF Halloween which turns the holiday into one of sharing rather than scaring. Two mothers will be present at each participating playground center on Halloween night from 6 to 9 to give the children their UNICEF containers and stickers and to receive their contributions for the world's needy children after the St. Paul children have made home visits in their neighborhoods.

### For Medicine, Food

The United Nations Children's Fund is used to purchase medicine and food for children in areas where malnutrition, malaria, TB, yaws and other diseases still take many lives.

Started in an American community in 1950, this UNICEF Halloween project was used in over 7500 United States towns and cities in 1956. It does not conflict with the traditional Halloween where children wear masks and dress as witches, spooks and goblins. The difference is that the UNICEF witches, spooks and goblins collect pennies, nickels and dimes to treat children in underprivileged countries to life-giving medicine, vitamins and milk.

Church, school, or service groups who wish to participate in the 1957 UNICEF project may call Mrs. Donsker for information and supplies. Her number is MI. 9-7802.

Ford Branch Library will be open for voter registration through tomorrow. If you are not a registered voter, this is the first step toward exercising your democratic right to vote.

## An Editorial Your Neighborhood Paper

The Highland Villager will soon enter its sixth year of publication and service to the community.

How important is The Villager to Highland after all these years? Does it serve a purpose which the daily papers do not? Would it be missed by the community if it stopped publishing?

These are questions which, in a very real sense, our readers will answer in the next few months as the daily papers begin publishing a neighborhood supplement.

Someone has said, "Imitation is the sincerest form of flattery." And, frankly, we're flattered to think that the big daily has decided to do the same thing we're doing — only (they say) better.

But can they do it better? We say they can't do it half as well — for the following reasons:

1. **Reader Interest.** The Villager treats all community news with tender care. Sometimes it comes to us scribbled on envelopes or jotted on a school tablet, but we do our best to edit it and give it back to the community in readable form.

Church news, want ads, club notices, news of children's activities, schools, colleges, community organizations — these and many more are welcomed by The Villager.

2. **Circulation.** Our paper is delivered by mail to every home in Highland — 20,000 of them in all, of which 14,000 are in St. Paul and 6,000 in Minneapolis. With this "saturation" distribution, you know that your news — and our advertisers know that their messages — reach every home in our area.

3. **Format.** We like the size and shape of our paper and feel that you do, too. A small page gives each news item and ad more prominence. Also there is an intangible personal quality about a small-sized paper.

Is there room for both The Villager and a daily newspaper neighborhood supplement?

No. Our paper, like most small community papers, operates on a shoestring. The paper you are reading is delivered 24 times a year free to your home. We get no money from subscriptions. If too much of our advertising goes to the neighborhood supplement of the daily paper, there won't be enough left to cover our costs of production and distribution.

Why should we take the matter straight to you, the reader?

Because it is the people in your household, and in 19,999 others, who will determine the outcome.

In making up a newspaper in the composing room, one sometimes winds up with an awkward bit of white space between two ads or between news and advertising. We fill the space with rather prosaic phrases like "Shop HIGHLAND First" and "Patronize VILLAGER Advertisers."

But we do mean them, and we're asking you to take them seriously, too. By showing our advertisers that Villager readers are the most responsive audience they can find anywhere, you will assure the continuance of this, your community newspaper.

Paraphrasing a well-known baby food slogan, we'd like to say: "Highland is our business — our only business!" We hope your support will make our continued service to this community possible.

## Play, Art Exhibit, Offered This Weekend At St. Catherine

By DOROTHY RILEY

An event of interest to Highland Villagers over the coming weekend at the College of St. Catherine is the first play of the season Sunday, Monday and Tuesday, October 27, 28 and 29, when "Lady of the Dawn" will be presented in Jeanne d'Arc auditorium. Curtain time this year has been pushed ahead to 8:15 p.m. for each of the performances.

The play is a new one Alejandro Casona. This is the second time it is being produced in the United States.

A strong plot, colorful set and costumes, and the music and dances of the old Spain make this production an exciting one.

Helen Troy, daughter of the Philip Troys, 2215 St. Clair Ave., has the leading part of the Pilgrim. A Highland Village student Lorayne Fritz, 1371 Eleanor, is in the cast to be seen as Adela. Charlotte Madigan, 2017 Marshall, will be seen as Telva.

St. Thomas college students who will assist the Katies in the production include Peter Redpath, John Harrington, Daniel Shea and Terrance Schreiber.

Mabel M. Frey is directing the play. E. Arnold Spencer is technical director.

An added cultural treat for play-goers in the area will be a visit to St. Joseph Hall preceding the performance to view the exhibit of the work of one of the art faculty members, Miss Charlotte Mills. She is showing sculptures, prints and photographs in the exhibit. It will be in St. Joseph Hall, Marian lounge, through November 19.

## Real Estate Tax Payment Due

If payments are mailed they will be accepted without penalty if post-marked before midnight, October 31.

## Jewish Home for Aged Anniversary Party Set

and fireplaces were constructed deep in the valley. The Ford Plant ran a line of lights to brighten the dark valley for evening activities.

"Vandals stole the lights and wire and wrecked the fireplaces," Kaufman related sadly. "Now we don't attempt to keep it up any more."

Earlier the area was used as a

## Why Many Are Turning To Chiropractic!

Nature endowed most of us with healthy bodies at birth. During our early childhood we romp, climb, play and exercise so the vital nerve force is kept intact. As we grow older the body still needs this vital nerve supply to keep well. Chiropractic restores this through adjusting the spine. If you are bothered with nervousness, high blood pressure, aches, pains — get back on the road to health. See your CHIROPRACTOR!

## Red Owl Votes Stock Dividend

Red Owl sales established new record highs for the six months ended August 31, 1957, stockholders were advised yesterday by Ford Bell, Chairman of the Board of the Hopkins (Minn.) Company, in a semi-annual report letter. Sales figures for the six months period reached \$85,688,604, a gain of 18% over comparable figures a year ago.

It was also announced by the Company that at a recent meeting of the Board of Directors, a quarterly dividend of thirty-five cents per share on its 609,626 share outstanding of common stock was voted. The dividend is payable on November 15, 1957, to holders of record of said stock at the close of business on October 31, 1957. This is the 44th consecutive dividend on common stock paid by Red Owl since 1946.

Bell attributed the 6-month record figures in large measure to Red Owl's expansion program now taking effect.

## Hidden Falls Park

(Continued from Page 1)  
rifle range for soldiers training at Fort Snelling.

"When we did the grading in the thirties," Kaufman related, "women came with buckets and picked hundreds of pounds of lead out of the banks."

Among other interesting "finds" in Hidden Falls Park are fossils of marine life and shell fish dating back to the time when the area was covered by the sea. Natural science classes from Macalester have used the area as a classroom, and such ancient treasures as petrified ferns can still be found there.

The south end of the park has been an important source of gravel, yielding up enough for park projects all over St. Paul. However, when the digging was done, enough gravel was left to form a road bed for a future riverfront drive under the Fort Snelling bridge.

### Boating

An old wagon road formerly led down to a nursery where the St. Paul park system grew trees, shrubs and plants for all of the city's parks.

In recent years with the upsurge of interest in boating as a family activity, the fine boat-launching shores of Hidden Falls park have become very popular. From them boating enthusiasts can travel throughout the vast inland waterways system, down to the Gulf of Mexico or, for that matter, around the world!

Other favorite activities are fishing and picnicking.

Eventually Hidden Falls Park will be incorporated in an extensive river boulevard system. "Till then Highland Villagers can enjoy the rugged beauty of a small wilderness right at their own doorsteps.

The Municipal Photo Club of St. Paul will meet next Tuesday, at the Palace Playground.

## Your Spine And Good Health

Stiff necks and painful shoulders are common ailments which are agonizing and sometimes temporarily disabling.

More often than not they are caused by inflammations which result when the nerve supply to these areas is pinched off in the neck area of the spine. Sometimes they develop after a fall, a twisting of the neck, a blow or bump, and minor auto accidents. It is easy to blame them on strain, or a draft or something equally obscure.

Chiropractors devote their time and research to such displacements of the vertebrae and their effects, and are competent to remove the real cause of these pains. By returning the spine to its normal position, the possibility of many other ills is eliminated as well.—Dr. Keith A. Nelson, Chiropractor, 1524 Randolph. By appointment. MI. 9-3419.—Adv.

Faisal F. Damluji, member of the parliament of Iraq, is visiting the Macalester college campus this week as part of a six-week lecture tour of the United States as an intercultural guest of the American Friends of the Middle East.

At 8:30 p.m. today he will make an appearance on the Macalester regular KTCA-TV program, when he will be interviewed by Dr. Yahya Armajani, professor of history. Mr. Damluji will discuss modern Iraq and will describe the political and economic aspirations of Arab nationalism.

The Badgers seem to have the class of the 10 and 11 year age group, as they defeated their closest rival, the Wolverines, 7 to 6.

In the 8 to 9 year group the Toms and Auggies played to a 0-0 tie, which leaves the two teams deadlocked for first place.

## Highland Junior High Dedication Planned For Next Tuesday

The public will have its first opportunity to tour the new Highland Park Junior High School at the formal dedication of the building next Tuesday. An open house from seven to eight p.m. that evening will allow time before the ceremonies for guests to inspect all the new and unusual features of the school.

The ceremonies will begin at 8 p.m. in the auditorium. Mr. Dean Schweickhard, Commissioner of the Minnesota Dept. of Education will give the dedicatory address. Mr. Richard Hammel, architect for the school, will present the keys of the building to Mr. Wm. Coulter, president of the Board of Education of St. Paul. Accepting for the school will be Mrs. G. Theodore Mitau, president of the Highland Park Junior High PTA; Mr. Raymond Dolen, principal; and the president of the Student Council.

## Symphony Pianist To Give Recital

Eva Knardahl, pianist, will be heard in recital at 8:30 p.m. tomorrow, at the First Unitarian Society, Minneapolis. She has appeared as soloist with the Minneapolis Symphony Orchestra and is its official pianist.

Miss Knardahl is a native of Norway where she began her concert career at six in Oslo's Aulean Hall. At nine, she was guest soloist with the Oslo Symphony Orchestra. Later, the Scandinavian Composers League chose her to interpret their works at the International Music Festival. In 1947, she represented Norway for UNESCO in recital at the

famous Salle Gaveau in Paris. Tomorrow, Miss Knardahl will play J. S. Bach's English Suite in A Minor, Beethoven's Sonata in F Major, Op. 10, No. 2, and three interludes and a fugue from Ludis Tonalis by Paul Hindemith. This is one of the massive keyboard works of our time, similar in concept to Bach's 48 preludes and fugues of The Well-Tempered Clavichord, Liszt's Sonata in C

Minor and six of Chopin's Etudes will complete her program.

This is the first of seven concerts which the Society will present this season in its auditorium at 900 Mt. Curve Ave. Art exhibits will be in the foyer at each.
