Your Weekly Guide to TV Entertainment • For the week of May 12 - 18, 2018 • Willa Fitzgerald, Kathryn Newton, Maya Hawke and Annes Elwy star in "Little Women"

Growing girls

The March sisters are back with a joint PBS and BBC miniseries production of Louisa May Alcott's "Little Women." Meg (Willa Fitzgerald, "Scream: The TV Series"), Jo (Maya Hawke, "Ladyworld," 2018), Beth (Annes Elwy, "Philip K. Dick's Electric Dreams") and Amy (Kathryn Newton, "Lady Bird," 2017) grow together in this authentic adaptation, hoping to empower a new generation of girls. Experience true sisterhood when "Little Women" premieres Sunday, May 13, on PBS, as part of "Masterpiece Classic."

Splendid sisters

PBS breathes new life into Louisa May Alcott's 'Little Women'

brief channel surf quickly reveals that women on television are still all too often depicted as jealous, fighting frenemies. Often generic and one-dimensional, these portrayals detrimentally serve to convince the world — and more importantly, young women — that to be feminine is to lack rationality and depth.

Fortunately for anyone looking for a more uplifting depiction of young womanhood, PBS has teamed up with the BBC to bring to life a new miniseries adaptation of Louisa May Alcott's classic novel "Little Women." How fascinating it is to consider that a series based on a 150-year-old novel could deliver a more honest and complex representation of women's relationships than we see in so much modern-day fare. The latest "Masterpiece Classic" offering, "Little Women" premieres Sunday, May 13, on PBS.

"Little Women" stays loyal to Alcott's work, while interjecting ample doses of humor and empowerment. Set amidst the American Civil War, the story provides a glimpse into the lives of the four March sisters as they grow from girls to young women under the watchful, loving care of their mother. The family, once well-to-do, now lives in poverty. Relocated to a new portion of a Massachusetts community, these little women find themselves not just penniless but also fatherless, as the patriarch has been called off to war. Left to fend for themselves, the March women are eager to prove that they're more than capable of doing so.

Each sister is undeniably a March, yet entirely unique. Meg March (Willa Fitzgerald, "Scream: The TV Series") is the eldest of the four and quite naturally adapts to a matriarchal type of role, quite satisfied with the prospect of a domestic life. Second eldest, Jo (Mava Hawke, "Ladvworld," 2018), is full of bold ambition, often labeled a tomboy due to her interests and hopes to be a published writer one day. Beth (Annes Elwy, "Philip K. Dick's Electric Dreams"), the third daughter, is quite shy and

has a penchant for music. The youngest March, Amy (Kathryn Newton, "Lady Bird," 2017), is the most artistic, though easily swayed into a state of vanity.

Initially, these four girls may seem fairly set in their ways, somewhat stereotypical and guite contrary to one another. As the girls develop, however, it becomes clear that there are multiple dimensions to all of their personalities, and assumed predictability is quickly discarded.

The casting of "Little Women's" leading ladies in this latest adaptation blends fresh, new faces with a healthy dose of well-established talent. If newcomer Hawke seems familiar, it may be in large part due to the success of her parents. The actress is the daughter of Uma Thurman ("Kill Bill: Vol. 1," 2003) and Ethan Hawke ("Training Day," 2001), two beloved actors whose passion for the craft seems to be hereditary.

Hawke has a lot of hopes for this interpretation of Jo, which she expressed during a news release interview for "Masterpiece." She longs for audiences to notice Jo's imperfections and notes that she did her best to express "the parts of [Jo] that she would feel insecure about" and to "illuminate her less perfect qualities," trying to stray from the perfectionist persona for which the character is typically known.

The two elder March ladies of the miniseries are portrayed by theatrical and cinematic favorites. Matriach Marmee is played by the acclaimed Emily Watson ("The Book Thief," 2013), who began her career heavily invested in feature film roles, but who has been racking up more and more TV series parts since 2011. Surpassing all of these talented ladies, however, is the legendary Angela Lansbury ("Murder She Wrote"), who steps into the fiercely critical shoes of Aunt March.

Since 1868, when "Little Women" was published, the story has endured countless adaptions in various formats. Be

it film, television, musicals, operas, stage plays, web videos or audio dramas, it's clear that the authenticity felt in this novel translates well to all mediums. The story was first adapted for the silver screen in silent format in 1917, with the most recent big-screen adaptation currently in production. When it comes to television, BBC has developed four miniseries of "Little Women," the first airing in the 1950s as a live production. Anyone with siblings, but especially those of us who are sisters and have sisters, find deep familiarity with the relationships and conflicts depicted, so it's no surprise that Alcott's work continues to remain relevant and

reproduced. Driven by authenticity and truth to the period within which the tale is set, "Little Women" promises to be a well-loved representation of the classic novel. The cast, crew and director have painstakingly worked to rec-

Isolated and hidden from the world for centuries, the nation of Wakanda has grown rich and technologically advanced, thanks to its deposits of vibranium, an incredibly rare metal. After his father's death, T'Challa (Boseman) returns to Wakanda to take the throne and keep the kingdom united as Black Panther, a hero given supernatural strength by a mysterious heart-shaped herb and a suit made of vibranium. However, when an exiled Wakandan named Killmonger (Jordan) arrives on the scene with a message of revolution, Wakanda's future — and that of the entire world — hangs in the balance.

After spending more than three years in prison, ex-cop Danny Gallagher (Urban) begins investigating a car bombing that he suspects may be related to the botched drug bust that ended

with his partner's death and led to him being incarcerated after being accused of corruption. With help from another former cop (Garcia) and a beautiful federal agent (Vergara), Danny tries to uncover the truth about who killed his partner and framed him for the crime, but as he digs deeper into the case, he begins to realize that he may not be able to fully trust the very people helping him try to clear his name. Director: Bobby Moresco. Stars: Karl Urban, Sofia Vergara, Andy Garcia, Grace Byers, Vincent Spano, Trai Byers, John Finn. 2018. 96 min.

A classic story from the Bible comes to life. After Samson (James) is given great strength by God, he performs many incredible acts, even slaying a lion with just his bare hands. His wife, Delilah (Leahy), discovers the secret of his superhuman strength, however, and betrays him to his enemies. Now powerless and in the clutches of those who hate him, Samson faces the ultimate test of his faith. Directors: Bruce Macdonald, Gabriel Sabloff. Stars: Taylor James, Caitlin Leahy, Jackson Rathbone, Billy Zane, Rutger Hauer, Lindsay Wagner, Greg Kriek. 2018. 110 min. Action.

New judge incoming in the latest season of 'Chopped'

By Andrew Warren

TV Media

ou can say this about
"Chopped": it has a formula
that works and it's stuck
with it for a long time. It makes
perfect sense. After all, if it ain't
broke, don't fix it.

Of course, the super popular cooking competition show hasn't remained static for all these years. Since premiering way back in 2009, it's had a few nips, tucks and tweaks, and the Tuesday evening Food Network series has another little tweak coming up: a new judge with a very big name. Although the series has always had a stable of rotating judges (with guests frequently mixed in for variety), including chefs Alex Guarnaschelli, Marc Murphy, Chris Santos, Marcus Samuelsson and Amana Freitag, it's never had the likes of Martha Stewart before, who joins as a recurring guest judge in the Tuesday, June 5, episode.

Before then, though, there's still lots of classic "Chopped" fun to be had. In this week's episode, airing Tuesday, May 15, host Ted Allen ("Queer Eye for the Straight Guy") reveals some intriguing mystery ingredients in the baskets

— ingredients that, as always, the competing chefs must feature in their dishes.

The first round's basket includes beautiful plums alongside a classic Asian food, but in an innovative form. For the entrée round, the baskets contain a cut of meat that's notoriously tough and a somewhat unusual mayonnaise-based product. When it comes time for dessert, the remaining contestants find a sugary breakfast cereal item that's sure to surprise.

So what is it about "Chopped" that's made it so appealing for so long? Perhaps it's just the simplicity of it all. Barring the occasional special episode, it's just four professionals doing what they do best: cooking. They're all given the same four mystery ingredients, which run the gamut from super common to super bizarre. Their time is limited, but outside of that, it's just pure cooking competition while the host and judges look on and pass commentary.

"Chopped" has always been good fun, and it's showing no signs of slowing down, with Martha Stewart joining as a recurring judge next month. The latest season airs Tuesday evenings on Food Network.

Q: Are there any laws or rules around using the words "based on a true story"? Is there a certain amount of truth that has to be incorporated in order to use that teaser? A: The only rule regarding saying something's "based on a true story" is the old rule about not getting

If there are people alive who can say with certainty that a film or show's account is not true in some legally actionable way — if it defames or harms a person's reputation, for example, then there can be a problem. But not an insurmountable problem.

"If it's 'based on a true story,' you are often representing real people and therefore clearances may be required," said Christos Michaels, a partner at the media law firm Lee & Thompson LLP, adding, "There are

different laws in different countries about this."

That, backed up by a particular type of insurance covering "errors and omissions," means you can inject quite a bit of fiction into your truth

Much of this, of course, stems from the vague phrase "based on," and it gets more vague from there. Consider "inspired by" — using it means your story doesn't need any direct connection to the truth.

"If a film is 'inspired by a true story,' then it tends to be the case that it's just a concept for the idea rather than a factual account," Michaels said. "In terms of characters, such a film would generally not try and portray anyone from the real story."

The most famous case of this, perhaps, is the 1973 horror classic "The Exorcist," which proclaims to be "inspired by" true events. In this case, that means the author (it was a book first) saw a newspaper article about an exorcism, and it "inspired" him to write a movie about an exorcism.

Q: I loved the movie "Blood In, Blood Out" — it was my favorite of the '90s teen gang movies. But was that Benjamin Bratt in the starring role? I didn't think he was around yet. A: Benjamin Bratt didn't really become a star until he premiered in "Law & Order" in 1995, but he was already showing a good deal of promise, particularly in "Blood In, Blood Out" two years earlier.

That film addressed the issue of street gangs in Los Angeles and was, as you point out, part of a brief cinematic trend that included other excellent films such as "Boyz n the Hood" (1991) and "Menace II Society" (1993). Bratt starred as one of three family members all embroiled, in one way or another, in East L.A. gang life.

It was certainly a breakout role for him, but he was already on producers' radars. In fact, he'd already starred in two TV shows — "Nasty Boys" and "Knightwatch" — but neither made it past its first season.

He also had a small but notable role in the star-studded 1994 action thriller "Clear and Present Danger."

But landing the role of Rey Curtis in "Law & Order" changed everything. Soon he would be starring in major, big-budget films (such as 2000's "Traffic" and 2004's "Catwoman") — and, it's worth mentioning, become romantically involved with the most famous actress in Hollywood, Julia Roberts.
