My pin is a American flag with five stars instead of fifty because that is too much stars to put.

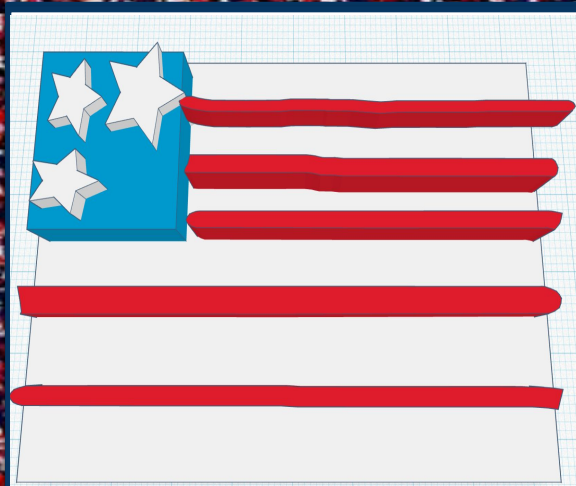

22

I designed my pin to show that the veterans are so amazing because they saved the united states. I love you guys. thank you.

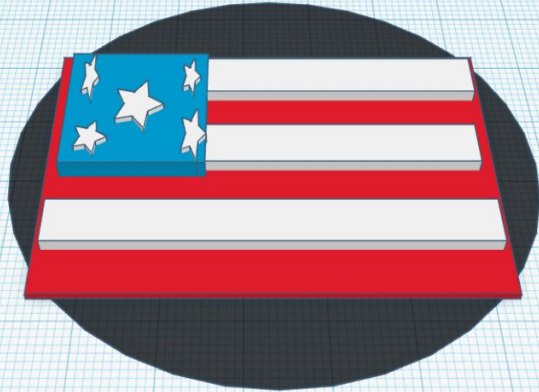

23

For my design I did a heart and in it I have two white stars. I have white stars to describe the start of the United states. I have three lines of red white and blue. I also did a Navy blue heart. My final thing I did is a word, this word is called hope. Hope is what Leia says when she gets the plans. But in this way I mean hope because it stands for hold on, pain ends. My grandfather was a Commander in the navy. He was a survivor because he had hope. He had to jump out of a airplane in a middle of a war and just "hope" he would survive. And he did. I didn't get to meet him but he is still the coolest guy ever.

24

My design is the American Flag to honor our Veterans

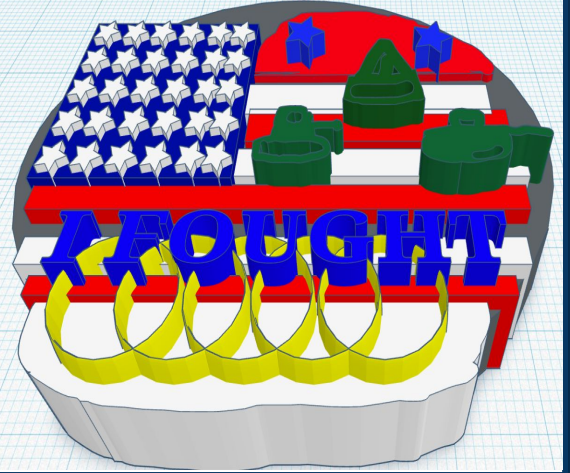

25

My pin says Thank you for saving our country because I think that it is nice to tell them that they saved our country and it will make them feel good.
