RE: Kevin Benbrook

9 Main Street, LLC

Dear Trishka:

I hope this letter finds you well and having a good start to the New Year. As you are aware, I own excess sewer capacity in Clinton Township that is subject to a right of first refusal in favor of the Township of Clinton with respect to sales of capacity to property that does not include an affordable housing component. I am attaching a copy of my Contract with 9 Main Street, LLC, for the sale of 1,800 gpd. As the attached will-serve letter recently issued by the CTSA reflects, it is requiring **confirmation of the Township's waiver of its ROFR** with respect to 517 gallons that 9 Main Street, LLC wishes to utilize for projects that apparently do not contemplate an affordable housing component. Based upon the Contract purchase price of \$80.00 per gallon, if the Township wishes to exercise its right, the consideration to be paid is \$41,360.00. I would appreciate the Township's response at its earliest convenience.

Very truly yours,
BENBROOK & BENBROOK, LLC

With Respect To:
9 West Main Street, Clinton Township
Block 49, Lot 25
Round 4, Township of Clinton Housing Element and Fair Share Plan**

Dear Mr. Meurer:

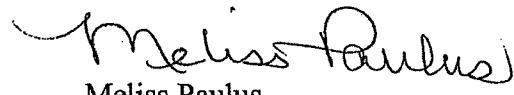

On behalf of the Clinton Township Sewerage Authority (“Authority”), we are in receipt of a request from both the Township of Clinton (“Township”) and Kevin Benbrook of Benbrook & Benbrook, LLC (“Benbrook”), for a “Will Serve” confirmation from the Authority for the above noted project. The project is one of three Round 4 mechanisms in the Township’s Housing Element and Fair Share Plan. We understand that the flow to be transferred for the project from Benbrook to Richard Meurer of Green Power Energy (“Green Power”) for use at the property captioned above is 1,283 gpd, with another 517 gpd available for transfer contingent upon proof of the Township exercising its right of first refusal for such 517 gpd.

The Authority will serve this project based upon the foregoing, with such proof for transference of the addition 517 gpd as set forth herein and contingent upon the receipt, review and approval by the Authority of sufficient conveyance capabilities.

In summary, based on current flows, available allocation and available reservation for the project as discussed above, the Authority is in a position to reserve capacity for the same as set forth and conditioned above.

Please let us know should you have any questions. Thank you.

Very truly yours,

Meliss Paulus,
Administrator
