With a SNAP SET Web Dryer System, you can help expand advertising revenue by offering sharp, glossy special sections. By adding revenue back from real estate, automotive or other specialty businesses, profits will increase substantially — for you and your advertisers/customers. Increase your readership and pick up rate by delivering a snappier looking product. Customers expect to see bright high quality graphics - by combining heatset and coldset in one run you can deliver what they want to see "on deadline".

Today's printer faces increasing demand for vibrant, clean, sharp 4-color printing. It is now possible for you to meet your customers' needs with the SNAP SET Web Drying System.

The SNAP SET System Web Dryer System offers true hybrid printing capabilities with substantial operational benefits over other systems.

Learn how you can add glossy printing into your publications.

Your readers will love the gloss - your advertisers will love the response.

---

Your Customers Will Love It!

WHEN PROVEN PERFORMANCE REALLY MATTERS

Tensor’s T-400BE single width, one-around press is one of the most advanced in the industry. The T-400BE offers a unique true arch-type geometry that positions the blankets higher and provides a wider opening for easier access. Excellent rolling dot transfer and torsional stability are achieved by a full bearer design.

Tensor’s unique “bearing-in-a-bearing” eccentric design provides optimum dynamic support of the blanket cylinders, which reduces print disturbance. This feature also provides unsurpassed durability in the critical frame bore area, thus providing very long service life of the equipment.

We're proud to welcome
The Virginian-Pilot
to the TownNews.com family!

Our integrated digital publishing, content management and data management solutions help the Pilot—and more than 1,700 other newspaper, broadcast, magazine and web-native publications—create great content, grow their audience and boost revenue.
If you strive for sustainable printing practices but don’t want to sacrifice performance, call us. We have the products you need to keep your pressroom, and the planet, running smoothly.

We offer many eco-friendly inks and chemicals for conventional and energy curable printing, and we complete the package with top-notch printing blankets that are always phthalate-free.

Rely on Flint Group to help keep your pressroom planet friendly.

Request information or a trial by emailing info@flintgrp.com

Visit www.flintgrp.com to download our sustainability report.
