

The emergency department has a new entrance!

Beginning April 8 at 8 a.m. the entrance to the emergency department parking lot will be accessed through Oak Street.

Phase one is complete! This includes our new entrance, reception, waiting area, triage room and security area.

This project was made possible thanks to generous donations to Great Plains Health Care Foundation.

Thank you for your patience as we continue to transform local healthcare!

Emergency department facts

- Increased exam room space from 12 to 29 rooms
- Added security to ensure patient, family and staff safety
- Improved patient flow to reduce registration and wait times
- Innovative new technology
