-------------------------	------------	------------

Included in the above appropriations for house and senate expenses are funds for a legislative business per diem allowance, meals, and other usual and customary expenses associated with legislative affairs. Each member of the house is entitled, when authorized by the speaker of the house, to the legislative business per diem allowance for every day the member is engaged in official business. The speaker shall authorize the legislative business per diem allowance to be consistent with law and house rules.

Each member of the senate is entitled, when authorized by the president pro tempore of the senate, to the legislative business per diem allowance for every day the member is engaged in official business. The president pro tempore of the senate shall authorize the legislative business per diem allowance to be consistent with law and senate rules.

The legislative business per diem allowance that each member of the general assembly is entitled to receive equals the maximum daily amount allowable to employees of the executive branch of the federal government for subsistence expenses while away from home in travel status in the Indianapolis area. The legislative business per diem changes each time there is a change in that maximum daily amount.

In addition to the legislative business per diem allowance, each member of the general assembly shall receive the mileage allowance in an amount equal to the standard mileage rates for personally owned transportation equipment established by the federal Internal Revenue Service for each mile necessarily traveled from the member's usual place of residence to the state capitol. However, if the member traveled by a means other than by motor vehicle, and the member's usual place of residence is more than one hundred (100) miles from the state capitol, the member is entitled to reimbursement in an amount equal to the lowest air travel cost incurred in traveling from the usual place of residence to the state capitol. During the period the general assembly is convened in regular or special session, the mileage allowance shall be limited to one (1) round

trip each week per member.

Any member of the general assembly who is appointed by the governor, speaker of the house, president or president pro tempore of the senate, house or senate minority floor leader, or Indiana legislative council to serve on any research, study, or survey committee or commission, or who attends any meetings authorized or convened under the auspices of the Indiana legislative council, including pre-session conferences and federal-state relations conferences, is entitled, when authorized by the legislative council, to receive the legislative business per diem allowance for each day the member is in actual attendance and is also entitled to a mileage allowance, at the rate specified above, for each mile necessarily traveled from the member's usual place of residence to the state capitol, or other in-state site of the committee, commission, or conference. The per diem allowance and the mileage allowance permitted under this paragraph shall be paid from the legislative council appropriation for legislator and lay member travel unless the member is attending an out-of-state meeting, as authorized by the speaker of the house of representatives or the president pro tempore of the senate, in which case the member is entitled to receive:

- (1) the legislative business per diem allowance for each day the member is engaged in approved out-of-state travel; and
- (2) reimbursement for traveling expenses actually incurred in connection with the member's duties, as provided in the state travel policies and procedures established by the legislative council.

Notwithstanding the provisions of this or any other statute, the legislative council may adopt, by resolution, travel policies and procedures that apply only to members of the general assembly or to the staffs of the house of representatives, senate, and legislative services agency, or both members and staffs. The legislative council may apply these travel policies and procedures to lay members serving on research, study, or survey committees or commissions that are under the jurisdiction of the legislative council. Notwithstanding any other law, rule, or policy, the state travel policies and procedures established by the Indiana department of administration and approved by the budget agency do not apply to members of the general assembly, to the staffs of the house of representatives, senate, or legislative services agency, or to lay members serving on research, study, or survey committees or commissions under the jurisdiction of the legislative council (if the legislative council applies its travel policies and procedures to lay members under the authority of this SECTION), except that, until the legislative council adopts travel policies and procedures, the state travel policies and procedures established by the Indiana department of administration and approved by the budget agency apply to members of the general assembly, to the staffs of the house of representatives, senate, and legislative services agency, and to lay members serving on research, study, or survey committees or commissions under the jurisdiction of the legislative council. The executive director of the legislative services agency is responsible for the administration of travel policies and procedures adopted by the legislative council. The state comptroller shall approve and process claims for reimbursement of travel related expenses under this paragraph based upon the written affirmation of the speaker of the house of representatives, the president pro tempore of the senate, or the executive director of the legislative services agency that those claims comply with the travel policies and procedures adopted by the legislative council. If the funds appropriated for the house and senate expenses and legislative salaries are insufficient

to pay all the necessary expenses incurred, including the cost of printing the journals of the house and senate, there is appropriated such further sums as may be necessary to pay such expenses.

--------------------------------	-------------------	-------------------

The above appropriations are to be used solely for the promotion and development of public transportation.

The department of transportation may distribute public mass transportation funds to an eligible grantee that provides public transportation in Indiana.

 9 (b) The general assembly intends that each tax incentive effectuate the purposes for which it was
 10 enacted and that the cost of tax incentives should be included more readily in the biennial budgeting
 11 process. To provide the general assembly with the information it needs to make informed policy choices
 12 about the efficacy of each tax incentive, the legislative services agency shall conduct a regular review,
 13 analysis, and evaluation of all tax incentives according to a schedule developed by the legislative services
 14 agency.

(12) An estimate of the indirect economic benefit or activity stimulated by the tax incentive.

(13) Any additional review, analysis, or evaluation that the legislative services agency considers advisable, including comparisons with tax incentives offered by other states if those comparisons would add value to the review, analysis, and evaluation.

28 estate for public purposes may be exempted from the allotment system by the budget director. The budget
29 director shall prescribe regulations as will ensure the proper application and encumbering of those funds.

30 (c) No appropriation to any state agency shall become available for expenditure until:

31 (1) the state agency shall have submitted to the budget agency a request for allotment, the request

23 after taking into consideration all previous expenditures to meet the same. In the case of an obligation to
24 be paid from federal funds, a notice of a federal grant award shall be considered an appropriation against
25 which obligations may be incurred, funds may be allotted, and encumbrances may be made.

Notwithstanding IC 6-8.1-7-1(a), the terms of a settlement under this subsection are available for public inspection.

(c) The department shall establish an amnesty program for taxpayers having an unpaid tax liability for a listed tax that was due and payable for a tax period ending before ~~January 1, 2013~~ **January 1, 2023**. A taxpayer is not eligible for the amnesty program:

- (1) for any tax liability resulting from the taxpayer's failure to comply with IC 6-3-1-3.5(b)(3) with regard to the tax imposed by IC 4-33-13 or IC 4-35-8; or
- (2) if the taxpayer participated in any previous amnesty program under:
 - (A) this section (as in effect on ~~December 31, 2014~~ **December 31, 2024**); or
 - (B) IC 6-2.5-14.

The time in which a voluntary payment of tax liability may be made (or the taxpayer may enter into a payment program acceptable to the department for the payment of the unpaid listed taxes in full in the manner and time established in a written payment program agreement between the department and the taxpayer) under the amnesty program is limited to the period determined by the department, not to exceed eight (8) regular business weeks ending before the earlier of the date set by the department or ~~January 1, 2017~~ **January 1, 2027**.

(d) The amnesty program must provide that, upon payment by a taxpayer to the department of all listed taxes due from the taxpayer for a tax period (or payment of the unpaid listed taxes in full in the manner and time established in a written payment program agreement between the department and the taxpayer), entry into an agreement that the taxpayer is not eligible for any other amnesty program that may be established and waives any part of interest and penalties on the same type of listed tax that is being granted amnesty in the current amnesty program, and compliance with all other amnesty conditions adopted under a rule of the department in effect on the date the voluntary payment is made, the department:

for listed taxes due from the taxpayer for the tax period for which amnesty has been granted to the taxpayer. Amnesty granted under this subsection (c) is binding on the state and its agents. However, failure to pay to the department all listed taxes due for a tax period invalidates any amnesty granted under this subsection (c) for that tax period. The department shall conduct an assessment of the impact of the

1 tax amnesty program on tax collections and an analysis of the costs of administering the tax amnesty
2 program. As soon as practicable after the end of the tax amnesty period, the department shall submit a
3 copy of the assessment and analysis to the legislative council in an electronic format under IC 5-14-6. The

11 (2) the taxpayer has filed a return or an amended return in which the taxpayer has reported a liability
12 for the listed tax; or

13 (3) the taxpayer has filed a written statement of liability for the listed tax in a form that is satisfactory
14 to the department.

15 ~~(e)~~ (f) The department may waive interest and penalties if the general assembly enacts a change in a
16 listed tax for a tax period that increases a taxpayer's tax liability for that listed tax after the due date for
17 that listed tax and tax period. However, such a waiver shall apply only to the extent of the increase in tax
18 liability and only for a period not exceeding sixty (60) days after the change is enacted. The department
19 may adopt rules under IC 4-22-2 or issue guidelines to carry out this subsection.

46 with an organizer to reconstitute an eligible school as a participating innovation network charter school
47 or to establish a participating innovation network charter school at a location selected by the board within

the boundary of the school corporation. Notwithstanding IC 20-26-7.1, a participating innovation network charter school may be established within a vacant school building.

(b) The terms of the agreement entered into between the board and an organizer must specify the following:

(3) The performance goals and accountability metrics agreed upon for the charter school in the charter agreement between the organizer and the authorizer and a statement that the school corporation is prohibited from setting additional performance goals or accountability metrics.

(4) For an agreement entered into or renewed after June 30, 2023, the process the board is required to follow in determining whether to renew the agreement.

(c) If an organizer and the board enter into an agreement under subsection (a), the organizer and the board shall notify the department that the agreement has been made under this section within thirty (30) days after the agreement is entered into.

(d) Upon receipt of the notification under subsection (c), for school years starting after the date of the agreement:

(1) the department shall include the participating innovation network charter school's performance assessment results under IC 20-31-8 when calculating the school corporation's performance assessment under rules adopted by the state board;

(2) the department shall treat the participating innovation network charter school in the same manner as a school operated by the school corporation when calculating the total amount of state funding to be distributed to the school corporation unless subsection (e) applies; and

Beginning with the 2019-2020 school year, the department may not use student growth as the state board's exclusive means to determine an innovation network charter school's category or designation of school improvement. This subdivision expires July 1, 2023.

(e) If a participating innovation network school was established before January 1, 2016, and for the current school year has a complexity index that is greater than the complexity index for the school corporation that the innovation network school has contracted with, the innovation network school shall be treated as a charter school for purposes of determining tuition support. This subsection expires June 30, 2025: 2027.

(f) If the board or organizer fails to follow the process described in subsection (b)(4), the board or organizer may appeal to the state board. The state board shall hear the appeal in a public meeting and ensure that the board or organizer follows the renewal process specified in the agreement. The board may not terminate an agreement until the board has provided evidence to the state board that the board has complied with the renewal process specified in the agreement. The state board shall issue a decision on an appeal under this subsection not later than sixty (60) days after the date the board or organizer submitted the appeal to the state board.

(g) If an administrative fee is included in an agreement entered into or renewed after June 30, 2023, under this section, the fee may not exceed one percent (1%) of the total amount of state tuition support that is distributed to the school corporation based on the participating innovation network charter school's student enrollment.

(h) An agreement entered into between the board and an organizer under this section may not be altered without written approval from the organizer.

26 (n) The amount of the reduction described in subsection (m) for a particular recipient is equal to the
27 total amount of the excess multiplied by a fraction. The numerator of the fraction is the amount of the
28 credential completion grant that the recipient would have received if a reduction were not made under this
29 section. The denominator of the fraction is the total amount that would be distributed as credential

31 SECTION 191. IC 20-43-10-3.5 IS REPEALED [EFFECTIVE JUNE 30, 2025]. ~~Sec. 3-5: (a) As used~~

36 ~~(2) directly providing virtual education;~~

37 ~~were rated as effective or as highly effective, using the most recently completed teacher ratings.~~

 5 (e) The following apply to the distribution of teacher appreciation grants:
 6 (1) If the total amount to be distributed as teacher appreciation grants for a particular state fiscal year
 7 exceeds the amount appropriated by the general assembly for teacher appreciation grants for that
 8 state fiscal year, the total amount to be distributed as teacher appreciation grants to schools shall be
 9 proportionately reduced so that the total reduction equals the amount of the excess. The amount of
 10 the reduction for a particular school is equal to the total amount of the excess multiplied by a
 11 fraction. The numerator of the fraction is the amount of the teacher appreciation grant that the school
 12 would have received if a reduction were not made under this section. The denominator of the
 13 fraction is the total amount that would be distributed as teacher appreciation grants to all schools if
 14 a reduction were not made under this section.
 15 (2) If the total amount to be distributed as teacher appreciation grants for a particular state fiscal year
 16 is less than the amount appropriated by the general assembly for teacher appreciation grants for that
 17 state fiscal year, the total amount to be distributed as teacher appreciation grants to schools for that

 19 distributed equals the amount of the appropriation for that particular state fiscal year.
 20 (f) The annual teacher appreciation grant to which a school is entitled for a state fiscal year shall be
 21 distributed to the school before December 5 of that state fiscal year.
 22 (g) The following apply to a school's policy under subsection (c) concerning the distribution of teacher
