OSKALOOSA SHOPPER CREDIT AND RATE POLICY
All Classified categories may require prepayment.
If in doubt, please call the Classified Department.
All classified display ads require prepayment in the absence of established credit terms.
Commercial rates apply to commercial business and applicable classifications, i.e. Help Wanted, Rentals, Real Estate for Sale etc. Classified line rates are discounted by consecutive insertions.

ADJUSTMENT OF ERRORS

It is the responsibility of the advertiser to check each insertion of an advertisement.
On consecutive run advertisements, no adjustments will be made by the Publisher for errors not corrected after the first day. The Publisher accepts no liability or responsibility for failure to insert an advertisement.
The Publisher accepts no liability for any error in an advertisement, regardless of course, except for the cost of the space actually occupied by the error.
The Publisher reserves the right to revise or reject, at its opinion, any advertisement deemed objectionable by the Publisher in subject matter, phraseology or composition, or to classify any advertisements.
All ads subject to credit approval.

advertisement is truthful and not misleading and further agrees:
1. Newspaper reserves the right to refuse to publish any advertisement. All advertisements are accepted for publication subject to review and rejection by the Publisher. Newspaper's acceptance of any advertisement shall not relieve the advertiser of liability for the content.
2. Advertiser assumes full responsibility and liability for advertisements published on its behalf. Advertiser warrants that it has the full legal right to use all material subject for publication. Advertiser further agrees to indemnify and hold Newspaper harmless from any and all claims and damages, including all costs incurred by Newspaper, resulting from the publication of any material submitted by the advertiser.
3. Advertiser shall not authorize the reproduction of any advertisement, or any part of an advertisement, created by the Newspaper, without the Newspaper's prior consent.
4. Newspaper shall have no responsibility or liability for errors appearing in original or advertiser approved copy. Advertiser agrees to check the advertisement's first publication and notify Newspaper of any errors or of the advertisement's omission. In the event of an error, or omission of an advertisement, which is the Newspaper's fault, Newspaper's sole responsibility or liability shall be to correctly publish the advertisement. Newspaper shall not be liable in any other manner whatsoever to advertiser

HIGHER POWER CONCERT

Sunday, October 24, 2021 • 6:00 - 7:30 p.m.

Fremont Baptist Church
133 South Walnut, Fremont, IA 52561

Questions: Call Pastor Robb 641-660-6036 or Joyce 641-660-6046
Masks are available at the front door but aren't required.

Higher Power sings gospel, southern gospel, progressive gospel, and contemporary music. A typical concert is filled with music, ministry moments, testimonies, and reflection, but their deepest desire is to show God's love, grace and forgiveness through the songs God has given them to sing to those who do not know Him, and to encourage those who do know Him to come to a closer relationship with Him.

Young Ambassadors Contest 2021 - Register Now!

Oskaloosa Main Street is excited to share the plans underway for the Main Street Young Ambassador Contest. One young man and one young lady will once again be chosen as Oskaloosa's Young Ambassadors. If you have a three-year-old to kindergarten-age child, enter them now!

The Young Ambassadors King and Queen will be announced on Monday, Nov. 29 at 6:00 pm at a gala event at Penn Central Mall held for the winners, their family, and local media. Depending on county COVID-19 numbers, the event could be held virtually. Participants will receive the same great prizes and will have the opportunity to participate in the "Miracle on Market Street" Lighted Christmas Parade, Saturday, Dec. 4 at 7 pm.

To enter submit the following to Oskaloosa Main Street, 222 1st Ave. East, Oskaloosa. (2nd floor of the MidWestOne Drive-thru building): A photograph of your child no larger than 3x5, \$5 registration fee, Child's name, birthdate, parent's name, address, phone, school attending, favorite activity, and what they want for Christmas. If you have a preference on canister location, you must get permission from that business. Entries will be accepted until 3:00 pm, Friday, October 22.

Business sponsors are needed to display a secure bank that will be provided for collecting monetary votes for the candidates. Voting will take place November 1 through the morning of November 29. The Young Ambassadors will be determined based upon amount of money they receive in their canisters. For more information call 641.672.2591.

October is
BREAST CANCER
Awareness Month

5 ways to reduce your risk of breast cancer

October is Breast Cancer Awareness Month, which makes it an ideal opportunity to learn more about one of the most common cancers among Canadian women. Since about one in eight women will develop breast cancer at some point in her life, here are some ways you can lower your risk.

- 1. Maintain a healthy body weight.** Being obese increases your risk of breast cancer. Eat well and exercise regularly to help you manage your weight.
- 2. Be physically active.** Research shows that regular exercise can lower your risk of breast cancer. Aim to do at least 150 minutes of aerobic activity per week.
- 3. Limit your alcohol intake.** Since drinking alcohol can increase your risk of breast cancer, you should limit yourself to less than one drink per day.
- 4. Don't smoke.** Get the help you need to quit smoking, or avoid developing the habit altogether. You should also steer clear of second-hand smoke.
- 5. Follow screening guidelines.** While a mammography won't prevent cancer, it can catch the disease early, giving you more treatment options and a better prognosis.

Understanding the role of genetics

Have you ever wondered why some people are more at risk of developing breast cancer than others? While many factors can come into play, including the person's age, lifestyle and environment, about 10 percent of cases are the result of a genetic predisposition. Since October is Breast Cancer Awareness Month, here's a look at the role that genetics play in this all-too-common disease.

GENES AND THEIR VARIANTS

A mutation is a change in the DNA sequence of a gene, which can potentially disrupt its proper functioning. While some gene variants occur naturally during your lifetime, others are passed down from your parents. This means that if either your mother or father has a gene variant, there's a 50 percent chance you'll inherit it. The danger is if this mutation is in the BRCA1 or BRCA2 gene, which are the most common causes of hereditary breast cancer.

HEREDITARY RISK FACTORS

In addition to having a higher risk of breast cancer, people with this genetic mutation are also more likely to:

- Be affected by cancer before the age of 50
- Have more than one type of cancer at the same time
- Develop rare types of cancer
- Have family members with the same type of cancer

Do you think you might be genetically predisposed to breast cancer? If so, ask your doctor for a referral to a specialist who can review your family and medical history and assess your level of risk.

Unchangeable risk factors

Unfortunately, many risk factors for breast cancer are beyond women's control. For example, the ABCF notes that roughly two out of three invasive breast cancers occur in women age 55 and older. Women cannot change their ages, but recognizing the link between age and breast cancer risk is important, as such a recognition may compel more women 55 and older to prioritize cancer screening. Gender and family history are two additional unchangeable risk factors for breast cancer. Women are much more likely to get breast cancer than men. In addition, Breastcancer.org notes that between 5 and 10 percent of breast cancers are believed to be caused by abnormal genes that are passed from parent to child. Women are not helpless in the fight against breast cancer. Knowledge of breast cancer, including its various risk factors, is a great weapon against it as women look to reduce their risk of developing the disease.
