## Important Health Screenings for Women

Staying on top of routine screenings is one of the most important aspects of healthy aging. Many serious conditions don't present symptoms in their early stages, and they can become much more difficult to treat as they progress. The good news: these regular tests can detect conditions when they're at their most treatable.

MLS Laser Therapy is an effective, painless treatment for all types of pain relief that has been cleared by the FDA and proven successful as evidenced by extensive and credible research studies conducted in our country's finest institutions, including Harvard Medical School.

I had pain & swelling. I received a cortisone shot but still had much pain. Dr. Rod suggested trying the laser treatment. Now 6 months later my knee is pain FREE. I recently injured my right shoulder and asked Dr. Rod about the laser treatment for it. After just 2 treatments I am almost pain free in the shoulder.
