**An Open Letter to the 2020 American Voter**

You are fortunate to live in a nation with a history of upholding democratic freedom. It was a hard fought legacy secured for you through the effort of countless patriots.

John Adams wisely asserted that government should be of laws and not of men, For history proves the failure of man to enforce laws leads to social conflict and anarchy.

An elite political class has emerged in your nation loudly demanding social justice for all. Their perverse form of justice has its origin in the radical platform of World Socialism.

They promote cultural equality by attacking the very institutions which provide it. Racial and class warfare are cleverly employed to inflame and divide public opinion.

Socialism cannot take hold in a nation that staunchly defends its democratic principles. To gain a foothold it must first destroy an acclaimed history of liberty and freedom.

Mass media is their weapon of choice to propagandize the failure of your culture. A left-leaning press and social media systematically discredit time-honored values.

Any individual or group who dares to disagree with this faction is immediately attacked. Protests countering those attacks are purposefully branded as seditious or racist.

Godless socialism cannot prevail when its authority stands second to a Higher Power. Traditional Judeo-Christian churches are slandered daily to discredit this message.

Progressive educators have gained control of your public schools and curriculum. American history is being rewritten to create a new culture embracing Socialism.

While the century-long list of human misery created by failed Socialism is avoided, Free enterprise is vilified as the principle destroyer of freedom and liberty.

A free market economy properly rewards risk takers with the profit of individual effort; The taxation of which provides the government a huge treasury to redistribute at will.

By virtue of being alive you are subject to risk daily and no government can eliminate it. Without the incentive to take on risk there is little drive to overcome stagnation.

Socialists would have you believe no new wealth can be created and to labor is futile. This zero sum deceit becomes a wish fulfilling prophecy for the 32% not participating.

It must again be pointed out that your government creates no wealth of its own. Government is dependent upon a healthy private sector to fund its insatiable appetite.

This obvious truth is denied while the left endeavors to confiscate even more property, All the while claiming a moral right to an ownership interest in the fruits of your labor.

The end goal is to create a European-style centralized government in the United States, Finalizing the dislocation of freedom and liberty granted by your constitutional republic.

Lord Acton identified the motivation behind the overreach of autocratic governance: "For each of you...power tends to corrupt and absolute power corrupts absolutely."

In the absence of evenly applied law, the risk of falling into an autocracy is great. The only obstacles standing in its way are the American voter and an honest vote tally.

Your founding fathers knew that only eternal vigilance can nullify the misuse of power, For not all elected officials are responsive and not all voters are responsibly educated.

Are you prepared to vote responsibly Nov 3rd to protect your legacy of personal liberty? History has proven that once lost, liberty can only be restored through extreme action.
