***As your new Gila County Supervisor, Hallie will not waste public funds,
will award County contracts fairly, and will be accessible to you!***

Payson Roundup spotlighted some grave fiduciary shortcomings in our district relative to filing audits and general accountability for expenses incurred by our past County Supervisors. The State Audit required yearly had not been done for over 8 years....losing Millions of State and Federal monies for projects because the reports were not DONE! A physical inventory of the Gila County's holdings were not done for over 12 years! The residents of Gila County deserve better!!!

The residents of Gila County are and have been the recipients of ineptitude and mismanagement. The salaries in Gila County for relatives and friends of County Supervisors are taking millions of dollars a year in over inflated salaries, 150% - 200% higher than the median salary in Gila County. Your tax dollars are being wasted through nepotism, by Martin in our County Government.

Hallie does not believe in wasting taxpayer money and holds accountability on how the funds are spent and managed, therefore reducing taxes. Hallie believes that in order to get a County job or County contract, you have to be qualified. Being a friend or family is not a qualification. Hard work is. Hallie will follow the existing policies and procedures and require awarded entities to report and certify how monies were spent and implement performance measures.
