1/ Can you confirm the employment timeline of Craswell with the PSB? We have heard from a source that he was working in at least one Island school as a guest teacher prior to January of 2023, and previously subbed as early as 2012.

TBC

2/ We have learned from sources that the June 2023 incident involving three girls happened at a Charlottetown area school. On this:
- Can you confirm this was West Kent?
- Why was that incident categorized as non-sexual?
- Why was it not reported to police? Who made that decision?
- Was the PSB made aware of that incident?

3/ You mentioned there was not a central reporting system for staff incidents prior to now, were the June 2023 incident and April 2024 incident linked to Craswell at the time? Did those who handled the April 2024 incident know about the previous incident?
