3/ You mentioned there was not a central reporting system for staff incidents prior to now, were the June 2023 incident and April 2024 incident linked to Craswell at the time? Did those who handled the April 2024 incident know about the previous incident?

4/ If the incidents were not perceived as sexual in nature, why was it decided Craswell could not teach in elementary schools? To what extent was it registered as inappropriate?

5/ Can you confirm Craswell passed his vulnerable sector check? When was that conducted and when did the PSB receive the results?

Will let you know if there are any further Qs here, thank you!
Nicola

Hi Matt, understood, and happy to include that transparency in our story that is going up shortly — going to send you questions in a beat — working with limited resources in a parking lot (glamorous) no need to return my call

Hi Nicola,

Director Beaulieu is spending the day responding to parents and meeting with staff during their area association events and is unavailable for an interview today. We would be happy to schedule an interview at the next convenient time for you. Does Monday work? If CBC choses to indicate in the story that she is unavailable for an interview, we would hope that you would also include that we are focusing on parents and staff today - they must be our priority at this time.

Please forward any questions you have so we can provide answers to support your story.

Matt
