Subject: A Message from The Public Schools Branch

Good afternoon PSB staff,

Please see the below message that will be sent to all PSB parents and guardians shortly.

The following message is being sent from Director Tracy Beaulieu to all families with students attending the Public Schools Branch.

****

Dear families of the Public Schools Branch,

In challenging times, we have to focus on doing the next right thing guided by our mission of fostering inclusive, diverse, safe and caring learning environments that inspire a commitment to lifelong learning and community engagement.

Since learning the extent of former substitute teacher Matthew Craswell's motivations through the court proceedings on April 29, we have upheld that being transparent with PSB families, to the extent possible, is the right thing to do. We have shared and will continue to share relevant information with you if and/or when it arises.
