Subject: Reaching out

Good morning.

To sad that this has been a difficult school year and excruciating week is a gross understatement. The facts that came out in the Matthew Craswell case are devastating and honestly quite difficult to wrap our heads around.

As you have been aware, we have been speaking quite openly about our challenges with the growing demands and the limited staffing we have to provide support. I have shared with the Department, we have presented to standing committee, and I have spoken to all who would listen about the fact that we are hanging on by a thread. This week the thread had broken.

The trustees as a whole have been amazing to ask us what we need and how you can help. We are at a point where we can no longer do it alone. We are now at the point of where the Health system was and it breaks my heart to know that it had to get to this point.

While I have to keep faith that we will become better because of this, I have to now seek your help and support and turn some of this over to you.
