Bright light front end of diesel train shape hovering /from distant star to huge craft overhead/passenger windows no soun no wings/tail

Four men, 20 yr olds..traveling country road, early morning..notice extremely bright star, high over head, 2'o'clock high..stop car..light 'zooms' from this far distance, to above us'hovering' it looked like it was so close -- I could have thrown a baseball and hit it?..HUGE light on the front of craft---craft looked like a diesel train/ small windows along side..no wings/ no tail/ no sound..just hovering directly above us..nobody gets out of car..two wants out..two no-way // all windows in car were down with our heads sticking gawking..no markings..how long was this over us???? in, still motion..(by the way)..then it lifts a little-- ZOOM's in a 'Z' pattern...lt,rt.lt and is ""GONE"" in the 'blink' of an eye...just as if, you made a Zorro mark, that smooth and swiftly..Four grown men riding home together from work..non-smoker's/drinker's. No doubt what we saw/saw us..years ago, very real, very true. 'GWE

Shape: Sphere

Duration:30 seconds

50 ft. sphere over farm house moved off excess of mach1 visible until fading out of sight.

I was driving with my mother "unfortunately now deceased" going east on the road just south of the wabash river when we came around to see a sphere approximately 50 feet in diameter about 1/4 mile ahead of us setting stationary above a farm house about 15 to 20 feet over the chimney it was glowing orange appeared to be perfectly smooth and was giving off enough light to illuminate the house and outline of the barn. At that point my mother said look at that moon and I said that is no moon however it was the classic color of the rising harvest moon. At that point it started moving south and up at about 30 degrees. It made no sound and accelerated at a tremendous rate in a straight line turning continuously lighter in color until it appeared to be no more than a star that continued in the same direction until it was too far and faint to see. This took no more than 20 seconds from the time that it started to move. I am rather certain on the size as its diameter was as close as I was able to tell the same as the top of the roof. I have been in the military and it was not a plane or conventional aircraft. It made no maneuver other than a straight line it made no sound although it had obviously exceeded the sound barrier several times. I now work in electronics and know of no way of doing this. It was a solid object below the high tree line it had no markings or visible openings. It was not a reflection and when we approached it was apparent that it was centered above the house that is still standing, and to the bottom was not over 45 feet off the ground.

((NUFORC Note: Date may be approximate, although the witness does not indicate that fact. PD))

Shape: Disk

Duration:3-6 minutes

The kids & I saw several bright white lights in a row hovering over the tree tops that were along the edge of a field.

This happened a few years ago, and I'm not sure if it was 96, 97, or 98 actually. I wish I had reported it though and always wondered if anyone else had seen it.

It happened after the kids and I were leaving a 4-H meeting in Twelve Mile. I was traveling South on the country road out of the small town. About a mile out of town I saw several bright white lights in a row (approx. 12-16) hovering over the tree tops that were along the edge of a field.

I stopped the minivan and asked the kids "What IS that?" We all sat and looked at it, trying to make out what the string of lights were connected to. The lights were all even to each other and didn't bounce, flash, flicker, drop or rise in the air. Judging from the height and width of the tree line and field, this object was at least as long as a football field, if not bigger.

I turned my van off and opened my window all the way. There was no audible sound coming from it. I knew it couldn't have been any type of known aircraft because it was much too large.

As we watched these lights it seemed that the object they were on must have been a disk shape because the lights all began moving slowly and steadily off to the right. As they moved off to the right, each light to the far right would disappear one by one. It was as if the object was disk shaped and was only lighted on one side and as it turned the lights disappeared out of our view, blocked by the solid object itself.

I have seen a video taped sighting of something that looked very similar to what I saw. I think I've seen the video tape on Unsolved Mysteries and a documentary on the Discovery Channel.

I really want to know what this is. I've never seen anything like it and my kids remember it vividly too.

MASSIVE CRAFT WITH COLORFUL LIGHTS APPEAR INSTANTLY ON HIGHWAY 16 WEST OF U.S.31 IN INDIANA

I was driving with my daughter on our way home from a visit in Lucerne, Indiana when i noticed something very large in size appear out of my drivers side window very close to the ground for any aircraft traveling at a slow rate of speed as if flying to the moon (which i think was full or for the most part). It seemed to be directly in the middle of the moon. Now this craft was very large in size and was lit up all over and just appeared out of nowhere. I mean literally that it was if someone just turned on a bunch of colorful lights. We were traveling eastbound on highway 16 towards U.S. 31 and approximately 12-15 miles from GRISSOM AFB. When it appeared i kinda shook my head to make sure i was seeing correctly and turned to the back to look at my daughter, who had fallen off to sleep. I look to my left and it was still there traveling slowly heading in a eastern direction. I then look to the south where GAFB is located and notice in the southern, southern east and straight east sky a numerous amount of aircraft. At this time the large craft ,what i would describe now was in a triangular or a diamond shape that seemed to be picking up speed and gaining altitude. At the first moment i spotted this craft out of my drivers side window (which would be the north) i instantly was like WHOA!! But now that it had been gaining speed i tried to keep up at a rate of about 80mph but thought that it was not wise to jeopardize my daughters life traveling at a high rate of speed to try to catch something that is impossible to catch. Anyway, this craft from what i could see was now very far from me to the point that i had lost sight of it all together, but the planes were still in the air. i myself had a hard time putting this altogether because i have been really inerested in ufo's but when this sighting happened i thought no way someone like me that is on the look out for them could actually encounter one. I firmly believe that this was the real deal and can't really tell anyone for they would call me crazy. I have rep orted another encounter to you most recently on large yellow lights in sky hovering. I have no idea what triggered me to recount this, but it is not the only ones i have witnessed. I have also seen one yellow hovering light that has changed location and on another account of a huge red fire ball with blue and yellow tint of what seemed to be a meteorite kind of decending at an angle. Again, this fire ball just appeared out of nowhere and rather instantly. I hope all this and my other report will be taken under consideration for investigation for all of them have been in the same vicinity of GRISSOM AFB. I don't understand it all but wonder what the significants is with me seeing these objects all around the same area. Once again this craft was intently bright a huge and have all been around the same time except for the fireball of some sort which occured around 11:30p.m.

it was a disc or saucer shaped object with rows of lights

My husband and i along with my oldest daughter was leaving my in-laws lane two miles north of logansport when i noticed lights above a neighbor's trees around their house. There was a black and grey disc or saucer shaped object with rows of lights for about 5 or 6 seconds then the lights shut off like someone flipped a switch and the object disappeared. My 12 year-old daughter saw the same thing and my husband only saw a glare of lights on the truck and ground. He could not see it due to the position of the object.

((NUFORC Note: We have spoken with this witness, and with her husband, and they both seem to us to be quite sincere and credible. PD))

orange lights that appeared and disappeared twice

My Husband and I were outside that night looking for our dog. I looked up at the sky and saw and orange lights that appeared out of nowhere, there were probably ten lights in two rows. It just came and went, I yelled at my husband and he did not see it. We continued to the house and it appeared again, this time my husband saw it. It did not look like any plane we had ever seen.

On 4-16-2004 I saw a huge sphere shaped object that had six lights in the sky over Logansport and it remained for several seconds.

We were going down 24 west toward Lake Cicott, Indiana when out the window I saw lights glowing we pulled over so we would not wreck. Several people in front of us put on their brake lights as well. There in front of us was 6 glowing lights looked like amber fire balls. It hovered for several seconds to maybe a minute and during this time the lights flashed on and off a couple of times. When I realized what was happening I called the radio station with no reply than I called the Sherriffs department and they informed me they had several different calls. As I was talking to them explaining what I had seen I saw lights again this time further away from me and I told them what I was seeing. It looked like they were being chased or something. When we called in regards to this matter today 4-17-2004, they have now stated it was the military practicing war games. I do not beleive this because I know what I saw.

Reddish orange light that moved from place to place.

I was having baseball practice at night and I looked up in the sky and saw a reddish orange light. I looked again and it was gone. Approximately 5 minutes later, it was in a different place in the sky. It continued to do this for about 8 minutes. After that I looked to a different are in the sky and five reddish orange lights were flashing on and off continusly. This lasted for about 1 minute. That is the last that i saw of them.

Duration:5 minutes

We saw 6 objects that looked like fireballs coming up from the western horizon. We stopped our car to see what it was , the fireballs faded, then the six objects started blinking and took off in different directions, Then coming back together making sharp turns then cycling back around, then when they stopped in mid air then began to glow orange again, this went on nearly 5 minutes. Then we heard a plane coming and all of the objects flying scattered off in to the distance. My brother and his wife told us they saw the exact same thing and were about 2 miles from us when this happened.

Orange Lights in the Sky

It was 9 pm - 10pm my family and I had left the theater. As we were driving home, I happened to see two orange lights up in the sky to the SouthWest. I was looking at them, and after we had went around a building they were gone. A few minutes later, the rest of my family in the car had spotted the lights. We sat in the car for a few minutes and watched the lights. There were 3 - 6 of these and they began circling around one another. Again they had disappeared. We waiting a little while longer and saw nothing, so we went to the house. My father and I were curious and went outside to look some more. We stood outside and a few minutes later we saw the lights once more. This time the lights were lined up and each blinked on then off once. That was the last we saw of them. We also saw a few passenger air planes but they were not any where near the lights.

bright white and red light 8 ft off the ground

I was driving home from work down a county road, all of a sudden a light appeared that lite up the entire area around me, at first I thought it was a police officer because the light was red and white but when I looked behind me nothing was there. I stopped my car and again looked behind me and there was a round light about a car length away approx. 8 ft from the ground it was white and red it lasted about 2 seconds and then it disappeared. I didn't see where it had came from and I didn't see where it had went. There was nothing in the sky that I could see, I have no clue what I saw but what ever it was it has me wondering.

I was on the internet studying about a reported SETI radio telescope signal: SHGbo+14a. I was studying on several different sites. I took a break from the study for about two hours. When I went back to resume the study on this signal. All information on this new signal from the different internet sites was completely removed. Don't we have the right to know about this latest radio telescope signal? Whoever is in control of the internet information is trying to stop the public from being aware of this latest signal!
