New-Used-Repaired-Rebuilt

Because of the struggling economy, several of our customers have asked us to repair transmissions or install used parts to save money. We have partnered up with several part suppliers and car and truck dismantlers. This has given us the ability to find low-mileage engines, transmissions, transfer cases and differentials, all with one to three year warranties. We can find any part for any type of vehicle, with or without installation.

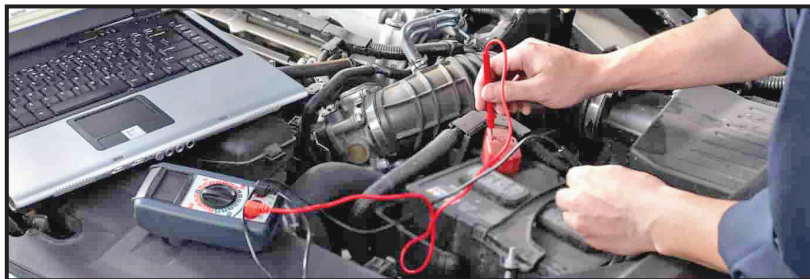

We Rebuild At Our Own Shop

We currently have 150 rebuilt transmissions and transfer cases on-site with one to three year warranties. If you want new parts we are authorized to get you dealer parts with factory warranty.
