Patrick loved gaming online. He also had an extensive board game collection that allowed us to host games at our home with amazing friends he called family prior to COVID 19. One of his greatest achievements was being a foster parent to over 23 foster children in our home. Patrick was greatly loved and will be missed tremendously.

Due to COVID 19, a private dinner will be held in his honor with his family and friends who meant the most to him and celebrate with stories of his life.
