**Market commentary:** Packers in the Columbia Basin and in Wisconsin managed to boost Russet consumer pack prices in spite of heavy pre-holiday shipping.

**Sources:** North American Potato Market News and USDA Agricultural Marketing Service  
**Notes:** Prices are Friday quotes. All prices are in \$/per cwt. FWA is a weighted average of shipping point prices for common packs in each area. Weights differ by area. GRI is the Grower Returns Index for each individual area, on a delivered-packing shed basis. Idaho GRIs are based on a 60% packout for Burbanks and a 75% packout for Norkotahs.

Today's report: <http://tinyurl.com/IdahoHayReport>

Compared to Nov. 9, good grades of alfalfa and oat hay steady in a light test.

Trade slow with good demand especially for feeder, organic and oat hay as demand exceeds supply at this time of the year. Out-of-state buyers are also pushing the market.

Prices are dollars per ton and FOB the farm or ranch unless otherwise stated.
