Market commentary: Idaho count carton prices are almost as low as prices for consumer bags, as the result of an imbalanced size profile.

Sources: North American Potato Market News and USDA Agricultural Marketing Service
Notes: Prices are Friday quotes. All prices are in \$/per cwt. FWA is a weighted average of shipping point prices for common packs in each area. Weights differ by area. GRI is the Grower Returns Index for each individual area, on a delivered-packing shed basis. Idaho GRIs are based on a 60% packout for Burbanks and a 75% packout for Norkotahs.
