

New Hemp Technology Is 450% Better For Discomfort Relief Than Regular Hemp Oil

Next generation hemp technology soothes joint discomfort, aches and sore muscles 5Xs better than hemp oil; now available in the U.S. without a prescription.

WEST PALM BEACH, FL — Americans are rejoicing about a brand-new technology that gets the goods on the health benefits of hemp.

A next generation hemp technology is now available across the nation and can be purchased without a prescription.

And the best part, it comes with a new delivery system that's 450% more absorbable than oil.

So you can say goodbye to pills, oils and creams.

Canna LS contains pure "full spectrum hemp," which works to relieve joint discomfort, restore sharp memory, and support a healthy normal inflammatory response, to name a few. And since it has no THC, it heals without the "high."

Exciting new scientific research shows that hemp contains special molecules called cannabinoids which bind to receptor sites in the brain and body. When taken orally, hemp activates these receptors

Why This New Technology Is Better Than Hemp

Unfortunately, most hemp found on the market can't deliver a fraction of these results. "The problem is, most hemp formulas come in oil form," according to Chief Technologist Mi Hwa Kim of The Green Gardener. "Oil doesn't breach the cell membrane, which is where the real healing happens. Our body is 80% water, our cells 90%. And you know what they say about oil and water — they don't mix."

This is why **Canna LS** contains a unique "water soluble" system. The technology is shown to improve absorption in the cells by 450%, quickly boosting the body's cannabinoid levels.

"The other problem is that most of these formulas only contain a single compound extract," says Ms. Kim. "Hemp's full spectrum of cannabinoids are shown to work synergistically. In short, they work better together. It's called the "entourage effect." Most miss out on the full effects because they are missing some of the best rejuvenating compounds within the hemp plant. This is why we've made **Canna LS** with "full spectrum" hemp."

"Finally, most hemp formulas are made on foreign farms with pesticides, or grown using

non-organic seeds and processes. We've grown the hemp in **Canna LS** at a 100% organic American farm, under strict agricultural guidelines. It's grown without pesticides or GMOs. And it's grown to contain no THC."

How It Works

The key to hemp's health benefits is the Endocannabinoid System, a network of receptors in the cells. The system is there to maintain homeostasis (balance). In response to toxins in our body, it releases cannabinoids to set things back to their natural state.

"It's really an amazing God-given system that's been completely overlooked," says Ms. Kim. "Our bodies are practically designed to work with the compounds in hemp, which is why we needed a technology like **Canna LS** that unleashes its full potential."

Over time, with aging, the endocannabinoid system eventually burns out. Fewer cannabinoids are released, so the body's levels deplete. The result is, all sorts of symptoms of aging like age-related memory loss, blurry vision, joint discomfort, and much more.

"This is why there's almost nothing hemp can't do and no health concern it can't address," says Mi Hwa. "The trouble is, most hemp formulas are just not absorbable enough for the cell, so they fail to activate the endocannabinoid system. This is why they don't deliver anything close to the full range of potential results."

Fortunately, **Canna LS** is clinically shown to enter the cell membrane 450% more powerfully. This is how it boosts cannabinoid levels fast, helping to relieve joint discomfort... restore foggy memory... and support healthy blood sugar. And what most people really love is that the "pearl" gel is easier to take than taking a pill or oil.
