I love you to. This is why I told you that you can not correct him like teenage or adult. I am more then scared for him before they put him in the helicopter I went into the room to see Gary and they had a breathing tube in his throat and he was ice cold. I wish you told me you pushed him. I told Braxton that Mommy and daddy both love him. CPS took him from me at like 6:30 and said in three business days I will have to go to court to see if they will be giving him back to me. I am lost without Gary or Braxton or you. I DK what is going to happen with our TA case now. I ~~do~~ don't believe you intentionally did it but you really should have let me deal with him when you got upset I DK if we/I will lose the apartment. Albany med found injuries to his rectum. I told them what Gary told us uncle Ray did. I haven't heard anything on how he is doing sense 4:30-5. I don't believe you would molest ~~of~~ Gary or any child. Yes we should. I'm worried about the kids and about what is going to happen. I will ~~see~~ see what goes on and ~~let~~ let you know. I love Gracie
