**Peripheral Neuropathy** is a result of damage to the nerves causing weakness, pain, numbness, tingling, and the most debilitating, balance problems. The damage is commonly caused by a lack of blood flow to the nerves in the hands and feet, causing the nerves to degenerate due to lack of nutrient flow. **Once this degeneration begins, it does not stop and continues to get worse.**

**The Good News:** You don't have to suffer from the debilitating pain and symptoms of Peripheral Neuropathy anymore. We now have a solution! The newest, most advanced protocol and technology to restore, repair, and rebuild damaged nerves and help reduce pain and symptoms associated with neuropathy.
