Hearing aids do not restore natural hearing. Individual experiences vary depending on severity of hearing loss, accuracy of evaluation, proper fit and ability to adapt to amplification. **The claim of "Our best tested product" is based on internal testing conducted by Amplifon comparing the performance of this hearing aid in enhancing speech in background noise against other products in our current lineup. The test evaluated speech intelligibility and quality under controlled conditions. Individual results may vary based on personal not completely satisfied, the hearing aids may be returned to the store of purchase for a full refund. The hearing aids must be in satisfactory condition, as determined by Miracle-Ear. Fitting fees may apply. See store for additional details. ††The range of this device is subject to variability based on environmental factors, including but not limited to, interference from other electronic devices, physical obstacles, signal strength, and phone type. This test was done in an open field, so building interference may shorten Bluetooth® range. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth® SIG, Inc., and any use of such marks by Miracle-Ear is under license.
