Suffering from Chronic Pain or Neuropathy? Don't Operate.... Regenerate!

You and a guest are invited to attend a COMPLIMENTARY LUNCH EVENT in Bettendorf. We've enclosed two (2) complimentary tickets for you and your guest. Please RSVP to reserve your space by calling the number below and giving your personal RSVP code or register online at seminar.RSVPyes.com/495162

Millions of Americans go through their lives with chronic pain and discomfort. If you are one of the millions, you have probably heard about how innovative and non-invasive alternatives to drugs and surgery have helped people reduce their suffering and regain control of their lives. With over 10 years of combined experience and extensive training in regenerative medicine and neuropathy, Dr. Sinan Gocmen and the medical team at Abundant Health have helped thousands of Quad Cities area residents reduce their pain, suffering and regain control of their lives. You are invited to learn about how Dr. Gocmen can help you live without chronic pain, neuropathy, have more energy, resume your favorite activities and enjoy a better quality of life.

Learn about:

- Surgery vs. Regenerative Medicine- Get the facts about each and the long-term results each provides
- How regenerative medicine has helped patients suffering from neuropathy
- How regenerative medicine and minimally-invasive alternatives have helped reduce or eliminate knee, back, shoulder, and hip pain that increase with aging
- Stem Cells - what they are, what they do (and don't do), and why this may be important to your health
- Why many doctors continue to prescribe medication or perform invasive surgeries for conditions that are effectively treated with other non or minimally invasive treatments
- What can I expect? Learn about other Quad City residence like you that have undergone treatment and their results

Registration begins 30 Minutes Before Scheduled Start Time.
