

November 9, 2020

City of Moline, IL.

We hereby inform you that the financial situation of our business has been very unfavorably impacted by Covid-19. But taking up the measure of closing Dine in is leaving us almost bankrupt. Every day we open is lost, on average we have lost 50% of sales and this does not allow us to sustain our expenses, we do not give up for our employees, but if this continues, we are expecting the worst. In these days we have used all the credit cards to be able to face the expenses. We have mortgaged everything we could to face all the losses, however we no longer have where else to lean. Your help will allow us to pay the payroll and have the satisfaction that we are doing everything possible not to lay off employees and continue to be their source of income.

Sincerely,

Judith Mariscal
