MELI'S PANCAKE HOUSE

1320 5TH AVE MOLINE ILLINOIS 61265

My name is Melissa Figueroa I am the Future owner of ~~Meli's~~ Pancake House locating in the old barley and Rye bistro downtown Moline. I had initially signed my lease weeks before the governor of Illinois had change the mitigation to only carry out and patio seating at this point my establishment is ready to open its doors only waiting for our inspections but also we are aware that you currently don't have a health inspector for the city right now so we are just waiting for another inspector to inspect our restaurant and pretty much ready to serve our customers but now fear that our new business would be in jeopardy just because we were at least counting with a 50% capacity seating and carry outs at the same time and now we will only count on carry outs and being a new establishment We want to make sure we become a successful business for the city of Moline being that said we feel that our pancake house will have a huge benefit to draw clientele downtown Moline and establishing a pancake house where there is no other one around we feel that we can use Emergency grant money to help us survive the winter Illinois medications that the governor has imposed on us at this point of we have made a commitment for three years lease and we want to make sure we can succeed our new pancake house restaurant in your downtown Moline community. We want to take this time to have you also please consider us on this emergency grant I know we may not have the doors open today but we are definitely ready to serve our customers tomorrow. Thank you for your time we sincerely appreciate it and hopefully we get to hear something back from you.

SINCERELY,

Address | City, St Zip Code
