Please see this statement as to the Impact the State of Illinois has placed upon our business. We at Bierstube have taken all appropriate measures to minimize the spread of COVID-19 as well as other communicable diseases through the use of masks, hand washing, hand sanitizers located throughout the restaurant. The nature of the restrictions of dining outdoors only asserts an impossible business model and can not be considered an option that merits the success of the restaurant. A simple look into our neighboring state of Iowa and the public's option to dine indoors with minimal restrictions will deplete a customer base we have fostered for close to 20 years.

A handwritten signature in black ink, appearing to read "Bob Rebitzer". The signature is fluid and somewhat abstract, with a large, sweeping loop on the right side.
