DePaul University Chicago, IL

1. Vice president of JOI club
2. Took AP Bio and passed the exam
3. Member of NHS junior & senior year

Throughout my time in high school, there are many important things that I've learned about, with the most important to me being learning about all of the different ways to communicate ideas. From very detailed lab reports in AP Bio, a half-joking speech about why perfume ads are a form of art, to simple paragraphs in French about how my weekend was, knowing and improving on how to communicate these things has helped me greatly.
