Thanksgiving Novena to
ST. JUDE

O Holy St. Jude Apostle and Martyr,
great in virtue and rich in miracles,
near kinsman of Jesus Christ. Faithful
intercessor of all who invoke this
special patronage in time of need. To
you I have recourse from the depth
of my heart and humbly beg you,
to whom God has given such great
power to come to my assistance.
Help me in my present and urgent
petition. In return, I promise to make
your name known and cause you to
be invoked. Say three Our Fathers,
three Hail Marys and three Glory
Be's. Publication must be promised.
St Jude pray for us and all who invoke
your aid. Amen. This novena has
never been known to fail. It helped
me. Thank you St. Jude for answering
my prayers.

Finally, a new and better way to afford a new roof!

INTRODUCING THE BUSY BEAVER ROOFING CONSUMER CREDIT CENTER

The cost to replace a roof has gone up by 55%, on average, since 2020 across the country.

Why use your money to replace the roof when you can use ours!

Our new consumer credit center is an inflation buster; it is tariff proof by locking in small manageable roof payments now.

It is a soft credit check so it will not affect your credit score.

Option #1 you can choose 24 months same as cash

Option #2 you can choose small monthly payments that average between \$149-\$249, depending on your situation.

Many of our clients did not have \$10,000, \$20,000, or more just lying around that they could use to replace their roof.

That is what prompted us to come up with a simple, affordable path for them to replace their roof when needed, without worrying about how they were going to afford it.

Don't dip into your savings or emergency funds to replace your roof. Take advantage of our Consumer Credit Center.

CELEBRATING
3 YEARS

89 Sandy Bottom Rd Coventry, RI 401-323-9825

By JENNIFER COATES

The renowned poet Maya Angelou once wrote of creativity: “You can’t use up creativity! The more you use, the more you have!”

There are few words which describe Robin Gursky, the owner of Endeavors and More in Coventry, better than these. Not only is Robin a creative person, she is also able to recognize, foster and celebrate it in her fellow artists. She is the epitome of someone who has endless talents of her own and an eye for the creative gifts of others.

Three years ago this June, Robin rallied the support of her husband Peter and their sons, Noah and Kyle, and purchased the site which now houses her family-run business, Endeavors and More. Here, she has curated a space where artists and artisans from around the region can showcase their works of art for all to see and purchase.

Whimsical art. Practical art. Decorative art. Functional art. Robin has brought together a world of inspiration — from paintings to jewelry to wood working, to hundreds of one-of-a-kind masterpieces! Her friendly smile and calming manner make her the perfect host for this unique and special collection.

To both honor her many customers and to salute her community of over sixty local artisans, Robin has planned a huge three-year anniversary celebration on Saturday, May 31st. All are invited to attend and enjoy the long-planned festivities of the day. The events all unfold both outside and inside at the shop’s Century Plaza location in Coventry.

Visitors will get to meet some of the local artisans and see their work, all of which is for sale. There will be a door prize and fabulous raffle offerings available from restaurants and local businesses as well as some of the original artwork featured in the shop. Watch for special guests from fellow small businesses including the refreshing juices of “Ali & Eli’s Freshly Squeezed” and the truly decadent cookies of “Cookie Chow.” Robin is also excited to introduce Little Lattes Play Café, a business that will be opening across from Endeavors and More this August! Robin knows that the success of others directly impacts her success.

One of the main attractions of the day will be the exciting work of artist Mark Chatterley of 10kv Artworks. Mark “electrocutes” wood, creating breathtaking piece of art from a blank canvas. The process, which he will be demonstrating, is called “Fractal burning.” Visitors may bring their own piece of wood (such as a cutting board) to “burn” or just marvel at Mark’s own creations which will be available to purchase.

All these exciting events, as well as the opportunity to explore the charms of Endeavors and More, will take place from 11:00am to 5:00pm!

Come explore Endeavors & More at 89 Sandy Bottom Road. Call the shop at 401-323-9825 or check it out on Facebook. Open Monday & Thursday, 3pm–9pm, Tues., Wed., Friday, 10am–6pm, and Saturdays 11am–5pm. Closed on Sundays.

Meet Robin Gursky, the owner and brainchild of Endeavors and More in Coventry, her husband Peter and their sons Noah and Kyle! Come celebrate THREE years on Saturday, May 31st from 11am – 5pm!

Is your lawn getting enough water?

A healthy lawn thrives with the right amount of water and nutrients. Lawn care is a year-long process. Even when the sun isn't very strong and the temperatures are cold, a lawn still needs water. That water requirement multiplies when higher temperatures lead to increased evaporation.

The experts at LawnLove.com, a lawn care and landscaping resource, say grass needs between 1 and 1 1/2 inches of water a week. Many times precipitation will take care of all of a lawn's water needs. But in times of drought or infrequent rain, it's up to homeowners to provide the water a lawn requires.

If homeowners ask a dozen lawn experts what they recommend in terms of watering, they're likely to offer 12 different answers. The type of soil and grass affects how frequently a lawn needs to be watered. According to the lawn care company Organo Lawn, it's better to do a deep watering two or three times a week to promote strong grass roots and maintain a healthy microbial composition in soil than

to water the lawn daily, which leads to shallow roots and can wash away nutrients. But it is important for homeowners to recognize when their lawns are not getting ample water. Here are some signs a lawn needs a drink.

- **Visible footprints:** Elasticity of the grass blades decreases when the lawn is not getting enough water. If you walk on the lawn and footprints do not bounce back in a short amount of time, you likely need to water.
- **Gaps between lawn and sidewalk:** Lawn Pride says that the soil can shrink in drought

conditions. This may be visible where the lawn abuts a driveway, sidewalk or even planting beds. If you walk along the perimeter of a lawn and notice a gap between the grass and hardscape, it is time to water.

- **Clumps of grass:** It is a sign of drought stress when grass grows in clumps rather than uniformly across a lawn.
- **Presence of dollar spot fungus:** Grass can become susceptible to this fungus, which also is called ascochyta leaf blight. It only develops in lawns with shallow grass roots caused by improper lawn wa-

tering. It's common in parts of Colorado and elsewhere and is noticeable when damage to the turf begins in the middle of the grass foliage.

- **Slow growth:** A lawn that doesn't seem to be growing well, or doesn't need to be mowed as frequently, likely isn't getting enough water.

Adequate watering can help a lawn develop strong roots and maintain grass health. Homeowners who have questions about their lawns and watering can consult with a landscaper or a lawn care service.

Tips for tackling tricky painting projects

(StatePoint) Some DIY projects are easier than others. Painting tricky areas like windows, curves, corners, murals and more might intimidate some painters, but don't let difficulty deter you from transforming your home into a space you love. DIYers of all skill levels can complete tough paint projects with a few useful tips and the right tools.

Challenge 1: Windows

When facing any difficult painting project, like windows, preparation is critical. First, clean the wood trim with warm, soapy water and a cloth or sponge. For wooden windows that will require paint application near the glass, don't forget to wipe the windowpanes with a glass cleaner. Buildup on these surfaces can prevent painter's tape from bonding to the surface, leaving room around the edges for paint to seep through and creating unnecessary cleanup post-painting.

Once the surface is prepped, line each windowpane and the trim with painter's tape, overlapping the edges in each

corner for the tightest seal.

Challenge 2: Curves and Edges

A good multi-surface painter's tape can help DIYers achieve professional results for most paint projects, but when it comes to unusual contours, it's worth investing in a conformable painter's tape, like FrogTape Advanced. Made with thin but strong washi paper backing, the green tape lies flat while conforming to curved areas, like around light fixtures, mantels, molding and fireplaces. It's also treated with exclusive PaintBlock Technology to seal tape edges for clean, sharp paint lines.

Challenge 3: Corners and Trim

When painting a wall or ceiling, it's not always easy to prevent paint bleed in the corners where adjacent walls or trim meet. Properly applying painter's tape can simplify the task.

When painting the ceiling, apply tape to the wall around the perimeter of the room,

keeping the tape flush with the line where the two areas meet, and overlap the tape in the corners. A similar process can be followed when painting wood trim. When the project is complete, remove the tape slowly at a 45-degree angle while the paint is still wet for best results.

Challenge 4: Murals

Recent consumer research conducted by FrogTape discovered that one of the most popular painting trends for DIYers is nature-inspired faux wallpaper. While more than half of people prefer painting a mural over applying wallpaper, 36% still say "not feeling confident in painting skills" is holding them back from trying this project.

Experienced painters may be confident enough to freehand a design, but those who are newer to the task can rely on painter's tape or stencils to bring their vision to life. Stencils can be used as a guide to create floral or leaf patterns, or DIYers can sketch the shapes and tape them off with painter's tape to

keep outlines crisply defined. Painting is one of the most rewarding DIY projects, but don't make it harder than it has to be. These tips can help simplify your next paint project, no matter how complicated it might seem.

Lookers find balance between simple, complex

By ROB DUGUAY

Redundancy is an eternal enemy of creativity. No artist or entity wants to make a rehashing of something else. there’s always a desire to make something fresh and new.

Enter the Providence indie rock act Lookers. The quintet of lead vocalist Muggs Fogarty, guitarist and synth player Rafay Rashid, bassist and violinist Florence Wallis, guitarist Nick Politelli and bassist Bryan Fielding blend together elements of post-punk, disco, surf and alt-rock together to create an inventive sound.

This is best exemplified with their new album “Deeper”, which came out via the Brooklyn based record label Almost Ready Records on April 25.

The band has a unique back-ground due to being somewhat like a supergroup with Rashid, Politelli and Fielding being part of the garage pop act Ravi Shavi, Wallis being part of the indie folk group The Low Anthem and Fogarty having a presence in the local poetry community. They also have ties to the area due to Rashid growing up in Warwick.

“Deeper” was written over the course of several years and recorded in two clusters, one section in 2017 and the other in 2024,” the band collectively says about the full-length. “The album aims to be uncomplicated but complex while having a lot of high-energy, flirty, angsty, danceable songs mixed with moments to reflect and feel something honest. The songs on aren’t shying away from the stickiness and complexity of

human connection along with its successes and failures. Expect textured layers of influence, explosive energy, and danceable drive.”

The overall quality of the tracks within the new release is pristine, and this is a big credit to producer Bradford Krieger at Big Nice Studio in Lincoln. While capturing the structure, arrangements and instrumentation in excellent fashion, he also allowed the band to experiment and take some risks in order to push things forward. This is especially true in the songs “Animal” and “Alone” while others such as “Midnight TV Dinner”, “Depressed” and “Crisis” convey a more direct approach. While there’s a substantial sonic variety that comes across, the low leaning tones and Muggy’s operatic delivery keep the tracks related to each other. It’s a malleable adhesive for the sequencing while creating an enjoyable listening experience.

To give “Deeper” a listen, look it up on YouTube or Spotify and press play once you find it, or you can log onto Lookers’ Bandcamp page at lookers.bandcamp.com. You can also possibly make a purchase on that platform to download it into your digital music library. Lookers recently finished up a short run of shows around the Northeast, but if you’re aiming to catch their next performance, follow their Instagram page [instagram.com/lookers](https://www.instagram.com/lookers) to keep tabs. In the meantime, stop reading this article and give this new full-length a listen, it’s rock music with a wide range that finds a really cool balance.

“The album aims to be uncomplicated but complex while having a lot of high-energy, flirty, angsty, danceable songs mixed with moments to reflect and feel something honest.”

ARIES (March 21 to April 19) You might not like some people's ideas of surprises. But you could be in for a pleasant shock when someone finally sends a reply to a request you made so long ago that you almost forgot about it.

TAURUS (April 20 to May 20) It's a time to expect the unexpected. So, don't be surprised if a decision that just recently seemed final suddenly opens up and leaves you with another chance to make an important choice.

GEMINI (May 21 to June 20) Taking a different tack on a work project might rattle some colleagues. But the positive results of your innovative course soon speak for themselves. Celebrate with a fun-filled weekend!

CANCER (June 21 to July 22) Meeting new associates can be awkward, even if you're in a high, positive phase right now. Best advice: Make them feel comfortable, and you'll soon forget your own discomfort.

LEO (July 23 to August 22) It's a good time for you social Lions to blow-dry your manes, polish your claws, and look like the Fabulous Felines you are as you make new friends and influence the influential!

VIRGO (August 23 to September 22) Expectations run especially high this week, and you should feel confident in your abilities to take advantage of what might be offered. Meanwhile, a colleague has some advice you might find helpful.

LIBRA (September 23 to October 22) A recent flurry of activity leaves you in need of a little breathing space, and you'd be wise to take it. In other news, close family members should have an explanation about an emergency situation that just passed.

SCORPIO (October 23 to November 21) An insensitive act makes a difficult situation more so. But try not to waste either your physical or emotional energies in anger. Move on and let others fill the clod in on the facts of life.

SAGITTARIUS (November 22 to December 21) It's a good time to look into a training program or college course you've been considering. You might have a good place to use these sharpened skills sooner rather than later.

CAPRICORN (December 22 to January 19) Education dominates much of your aspect during this week. You might want to start checking out summer session courses that could help advance your career plans.

AQUARIUS (January 20 to February 18) Making progress often comes by fits and starts. But at least you're moving straight ahead with no backsliding! You should soon be able to pick up the pace and reach your goals in due time.

PISCES (February 19 to March 20) Be wary of a deal that gives confusing answers to your questions. Remember, it's always risky swimming in unknown waters, so you need all the help you can get to stay on course.
