

## CARING FOR ALZHEIMER'S AND THE ELDERLY IS HARD. DON'T NEGLECT TAKING CARE OF YOURSELF AS WELL.

Introducing our Life Enrichment Program  
for the elderly and those who care for them.

Our program is designed to help enrich the lives of the elderly while offering caregivers a respite from the demanding responsibilities of daily caregiving. It is ideal for folks who need some support caring for a family member, especially if they are working. Be it a day, several days, a week or as long as a month, we'll take good care of your loved one so you can take care of yourself. From experience, we know all caregivers could use a little break now and then, and our program is here for you.
