

Complimentary Recycle Bins

AVAILABLE FOR SANTA MARIA BUSINESSES

Recycling at your business just got easier . . . and it's FREE!

The City of Santa Maria Utilities Department is offering indoor recycle bins for Santa Maria businesses. The bins are ideal for offices, breakrooms, and under desks. Select the tall option with a lid for cans and bottles (or a lid for paper), or select the small option for paper recyclables.

Call the Utilities Department Monday-Friday to request your containers and schedule an appointment for a no-contact pickup.

Limit to four of any combination per business while supplies last. Available only to businesses with City trash and recycling collection services. Verification required.
