

HEALTHY OCEANS, STRONG COMMUNITIES:

A Film Screening & Panel Discussion

Join us for special Earth Day screenings of “Healthy Oceans, Strong Communities”, a documentary that shows what Marine Protected Areas are, why they are essential, and why they need your support. The film will be followed by a panel discussion highlighting how to take action for our ocean, including an opportunity to protect nearby Point Sal in a new marine protected area.

EARTH DAY, APRIL 22ND

Room M-310, Allan Hancock College

(The “Whale Room”)

2:00 - 3:30 pm

7:00 - 8:30 pm
