## BIDDING INSTRUCTIONS

### BIDDER REGISTRATION

Bidders must register first in order to be able to place bid. You can click the button or the Register button in the Menu. If the Register button isn't displaying, you may already be signed in.

### BIDDING

When you are signed in as a bidder you can click on an item in the catalog when bidding is open to allow you to bid.

### MAX BID

Max Bid Amount (formerly Proxy Bidding) may be offered on your bid. After you enter your immediate bid, the Max Bid field allows you to enter a maximum bid. When a maximum bid is entered, your actual bid is kept as low as possible and the system will raise the bid up to the maximum entered only as another bidder bids against them.

With Max Bidding you will only pay the lowest possible winning bid which may not actually be the maximum bid you bid placed for the item. Your bid will never go over the amount you entered.

### BID EXTENSION

For this event, if a bid is received within five minutes of the closing time for bidding it will result in a five minute extension of bidding for that specific item to allow other bidders a fair chance to bid. This process will repeat until no further bid is received in the successive extension or until 10 minutes after the original closing time.

### MY ACCOUNT

When signed-in, the My Account page provides you with an overview of your account including such information as your Account Summary, Bidder Details, Active Bids, and Payments.

### TEXTING

You can Text your bids! Send all text messages to **1-470-570-8978**

When you register through the website, **enter your phone number**. We will recognize the match of your cell phone number to your bidder record.

If your phone# is not yet registered - send a text: **claim <email>**

This will ensure you are set up correctly and can receive out bid notifications by text!
