

Briar Cliff University Is Life Changing...

“I haven't **accomplished everything** yet, but Briar Cliff has given me what I need to **accomplish anything.**”

Tracy Erlandson '08
Account Executive

“I chose Briar Cliff because I had heard so many positive things about the University. Plus, my academic advisor really listened to me and understood my needs.

I enrolled in BCU's ADVANCE Program for working adults because the evening and weekend classes allowed me to keep up with my job and my family responsibilities.

The caring and helpful professors and staff at Briar Cliff made it easy for me to continue my education.

When I completed my college degree at Briar Cliff, I obtained my current position as an account executive, which was a total career change for me.”

Sharon Bolden
Service and Sales Rep

“I love Briar Cliff University! The evening and weekend classes work around my busy schedule.

My advisor helps me by encouraging me. My professors really understand me and want me to succeed.

BCU is providing me with all the tools I need to get my degree and to prepare for the job market. I am so happy I chose BCU to continue my education.”

Deke Butler
Purchasing Manager

“I can't imagine what I would have done without my BCU experience. Being able to work while going back to college has been invaluable to me.

The initial fear and anxiousness I experienced before I enrolled were quickly replaced by confidence. In the ADVANCE Program for working adults, I belong to a very understanding and relatable group of students and instructors.

I haven't accomplished everything yet, but Briar Cliff has given me what I need to accomplish anything.”
