Subject: [ArcMail Restored] Re: Support

Laura, Chuck and Frank are in favor of a letter from the Council opposing the minimum wage increase. I am voting with the majority. Pete is against.
Therefore I requesting a letter from Council in opposition to HB166 and SB280.

Regarding the oyster sanctuary Bill, Laura and Frank are in favor of proceeding now with a letter opposing HB298, which has a hearing on Friday 2/22. Chuck and Pete asked to wait until we hear from the watermen on March 4th. I tried to reach Bruce Cole this evening for his input but was unable to reach him. As this is time sensitive I am casting my vote with Laura and Frank for a majority to proceed now with a letter of opposition for Council.

If you have any questions please call me.

> I support the Watermen and believe that we should also voice our support for them. I believe in innovation and not regulation. We are just beginning to see new ways to grow oysters and while some have the money to invest, others still need the ability to work all of the water while learning about other processes.
