

# CACHUMA LAKE

## FISHING REPORT

WEEK ENDING: January 19, 2020

WATER TEMPERATURE: Top Water 57 degree

The bass continue to be the big story. Most were caught from boats using jigs, lures and drop shots with roboworms. The popular lures are Rapalas, S Wavers and Flicker Shads. Trolling is very successful, especially by the dam. We're still over 70% water capacity, well above the spillway, so no trout plants are scheduled.

Our last boat rental is at 2:00 p.m. and boats must be back in by 4:00 p.m.

We have an assortment of rentals from kayaks and canoes all the way up to our 20 passenger pontoon. We don't accept reservations.

The weekends are very busy so if you want to rent a Pontoon Boat, it is best to get here early and stand in line until we open.
