#1 Doctor- Dr. Tolby 13th Year

As a pediatrician here in Longview for more than 35 years, Dr. Tolby has seen thousands of patients – even the children and grandchildren of former patients! It is the joy of seeing children grow up into productive, competent adults that keeps him engaged in our community, meeting with teachers, school administration, mental health agencies, Head Start, and other professionals who collaborate with him regarding his patients’ health. His partners congratulate him on this well-deserved award!
