

PUBLIC NOTICE

City of DuBois Act 537 Special Study for the Slab Run WWTP

Notice is hereby given that the City of DuBois (City), Clearfield County, proposes to adopt an update to their respective Act 537 Sewage Facilities Plans following a 30-day public comment period, which is hereby established. The Act 537 Special Study was prepared for the sole purpose of addressing the sewage facilities planning needs for the continued operation or abandonment of the Slab Run WWTP.

The recommended alternative for this Sewage Facilities Plan is Alternative 3, which includes abandonment of the Slab Run Wastewater Treatment Plant, modifications to Slab Run Pump Station No. 1, construction of approximately 1,500 linear feet of new forcemain, and construction of a new regional pump station near the existing Falls Creek forcemain crossing at Larkeytown Road. Wastewater flows from the Slab Run service area will be conveyed to the City of DuBois Water Resource Recovery Facility for treatment. Upon completion of the project, the City of DuBois will own, operate, and maintain the new pump station, conveyance facilities, and associated infrastructure necessary to provide reliable wastewater service within the project area. Upon publication of this notice, a 30-day review and comment period is in effect. Anyone wishing to review and/or comment may do so during this 30-day period.

The Act 537 Special Study may be reviewed during the public comment period at the offices of the City of DuBois, at 16 West Scribner Avenue, DuBois, PA, 15801, between 8AM and 4PM, Monday through Friday. Comments on the Act 537 Special Study are welcome and should be addressed to the attention of the City of DuBois and received within 30 days from this Public Notice.
